# TRUMAN AGAIN SEEKS CURBS

# *Commodity Prices Take Drop Under Heavy Sales*

## PLUNGE FOLLOWS BIG NOSEDIVE YESTERDAY; STOCK MARKET WEAK

### WHEAT, CORN LOSSES RANGE UP TO TEN CENTS PER BUSHEL

By The Associated Press.

NEW YORK, Feb. 5.—(AP)—Commodity prices nosedived again today for the second day in a row.

Soon after grain and other commodities plunged under heavy selling, President Truman said prices are rising so aarmingly that a crash is inevitable unless something is done to halt them.

The stock market, weak yesterday, resumed its decline but at a slower rate.

**Losses Hit Maximum.**

Losses in wheat and corn ranged to 10 cents a bushel as selling flooded the Chicago grain pit. Yesterday wheat for future delivery dropped the 10-cent maximum allowed in a day's trade at Chicago Minneapolis and Kansas City.

Moderate selling in the New York Stock Exchange lowered prices a few cents to around $1 a share.

Lard at Chicago lost 2 cents a pound, the most allowed.

Cotton at New York skidded around $3 a bale, then rallied slightly. Cottonseed oil dropped the 2 cent maximum and lower prices were posted for sugar and grease wool.

**Commodity Key.**

Grain prices are the key to the entire commodity price structure, according to a widely held opinion among economists and businessmen. A break in grains, they say, will be immediately felt throughout the economy.

A. W. Zelomek of the International Statistical Bureau, said today's break might be the turning point in the long road to inflation.

Prices are even more vulnerable now than at the end of the first World War, Zelomek declared.

**Recession Feared.**

This opinion was also given by a prominent New York banker, who said business is walking the tight rope of fear of another recession.

President Truman, meanwhile, told a press conference he will keep telling congress he needs authority to impose price controls.

Experts disagree over how the sharp break in commodity, stock and bond prices will affect the housewife's pocketbook.

Business men and government officials were studying these developments closely:

The price of wheat bought for future delivery fell the legal daily limit, 10 cents a bushel, at Chicago, Minneapolis and Kansas City.

At New York 1,200,000 shares of stock were sold at a drop of between $1 and $5 a share—the biggest decrease since May.

**Bonds Fall.**

The price of bonds fell generally.

Cotton prices at one time dropped $6 a bale, but final prices at New York were from $3.55 lower to 35 cents higher.

ESCAPES—Fritz Kuhn, former leader of the German-American Bund in the United States, escaped from a German internment camp at Dachau, Germany, according to an announcement in Munich by the Bavarian Denazification Ministry. Kuhn is shown in jail at Neudeck, Bavaria, near Munich after his arrest in July for possible trial as a Nazi offender. (AP Wirephoto.)

## Higher Phone Rates To Be Asked Here

Formal notification was given to the city commission by officials of the Southwestern Bell Telephone Co. Thursday morning that the company would ask for approval of an increase in rates—an increase, they said, made necessary by the rising costs of furnishing service in Corsicana.

Clyde L. Stewart of Dallas, divisional manager, W. L. Cluxton, Corsicana, district manager, and H. P. Phillips, Corsicana, local manager, met with Mayor Hubert T. Braselton for a few minutes in the morning explaining the company's stand in asking the rate increase. They also conferred with other commissioners.

**Increases Asked.**

In declaring that it is losing $2,300 a month here, the company asked that the following increases be granted:

Business Service .... ....$1.50.
Residential Service ..... .50
Two-Party Lines ..... .25

Cluxton, in announcing the request for revised rates, said that the company has failed to take in enough money to pay the costs of providing service in Corsicana.

It has been 27 years since the telephone company has asked permission to alter its rates. The present rate was established when Corsicana had 2,200 telephones, as compared with 4,600 today.

**Before Commission Soon.**

Cluxton said the request would go before the city commission at its next meetihg, Feb. 17.

The raise would bring the cost of a business telephone to $6.50 a month, a one-party residential telephone to $3, and a two party line to $2.50.

During 1946, Cluxton said, the company collected $141,100 here, while costs of operating the plant were $158,000. The company failed by $16,900 to collect enough revenue that year to pay the actual costs of providing telephone service, with

## Efforts To Cut Taxes Futile, Says Truman

WASHINGTON, Feb. 5.—(AP)—A senate-house budget sub-committee voted today to try for a $37,200,000,000 ceiling on gavernment spending in the year beginning July 1.

Chairman Bridges (R-NH) said this will mean cutting President Truman's $39,700,000,000 budget far more than the $2,500,000,000 slash which the committee set as a goal yesterday.

---

WASHINGTON, Feb. 5.—(AP)—President Truman said today that Republican efforts to slash his $39,700,000,000 budget will get exactly nowhere.

He told a news conference a senate-house subcommittee recommendation for a cut of $2,500,000,000 was just so much conversation.

He said he seemed to have heard similar conversation last year about cutting the budget.

A year ago, he said, he asked for $37,500,000,000 and congress ended up by appropriating $37,700,000,000.

This year, he said it's exactly the same line of conversation and will get nowhere exactly.

The $2,500,000,000 figure was approved yesterday by a senate-house budget subcommittee. It is subject first to approval by the full 102-member committee asigned the task of re-checking White House spending estimates and then to ratification by both the senate and the house.

Even then it will not be binding, but only a target to shoot at when the actual money is voted.

There is general agreement among congressional leaders that the amount of tax cutting to be done this year will depend on the amount that can be cut from Mr. Truman's budget. It calls for spending $39,700,000,000 during the government fiscal year starting July 1.

The house already has passed a bill to cut taxes $6,500,000,000 on

See TAXES, Page 9

## PRESIDENT FORESEES CRASH UNLESS HIGH PRICES ARE CURBED

### RATION POWER URGED; HAS NO COMMENT ON COMMODITY PLUNGE

WASHINGTON, Feb. 5.—(AP)—President Truman today called price levels alarming. He said that if some way isn't found to stop their rise they will come down with a crash.

Mr. Truman told a news conference he feels as strongly as ever that h ought to have power to put on price ceilings and order rationing.

While the president was talking:

1. Prices on commodity and stock markets, which fell sharply yesterday, when down some more.

2. The Agriculture Department was reported putting final touches on a plan for Americans to pledge to ration themselves.

**Urge Grain Curb**

3. Chairman Brannon, assistant secretary of agriculture, was pleading before a congressional committee for power for the administration to hold down use of grain for whisky-making.

Brannon argued that when distillers buy grain it sets off a chain running like this: grain prices tend to go up. That means prices for meat, eggs, chickens and milk are pushed up because cattle and chickens eat grain.

He made his arguments to a senate-house economic subcommittee.

Mr. Truman brought out charts prepared by the budget bureau when he talked about prices.

**Steady Rises**

He said these show steady rises in the prices of commodities, food and all other items. Rises, he explained since he asked for standby price and rationing authority in a message to the special session of congress last November.

Mr. Truman did not say whether he is planning a special message to congress. He said members of congress have the same information he has.

A reporter asked Mr. Truman what about the "nose-dive" yesterday of prices on commodity and stock markets. (The price move-

## Panhandle Snow Great Value To Wheat Farmers

By The Associated Press

A blanket of snow estimated of great value to wheat farmers fell over the Texas Panhandle today.

The fall ranged from four inches in the Perryton area of the North Panhandle to less than an inch in the South Plains.

The only inconvenience was to highway travel.

Communications were maintained throughout the area, although early in the day the Southwest Bell Telephone Company expressed fear of losing its wires because of ice.

**No Wind**

No wind accompanied the snow. Rain during the night turned to snow this morning, blanketing the Panhandle and South Plains. Freezing rain was reported this morning at Clarendon, in the southeast corner of the Panhandle.

The temperature at Amarillo rose above the freezing point during the morning and highways became slushy.

The rain and snow brought much needed moisture to the area.

Though it had stopped snowing in the Amarillo area, the slow, beneficial fall continued in the North Panhandle.

Across the Texas line at Clayton, N. M., the snow measured seven inches.

**Bad Ice Conditions**

The Dallas weather bureau said the map outlook was "bad, from the standpoint of possible icing conditions." In the northwest part of the state.

A cold area from the north was overspreading a low pressure area of warm, moist air from the gulf, the bureau said, and any precipitation probably would produce icing conditions.

Temperatures at 9:30 a. m. were 29 at Amarillo, 25 at Pampa, 31 at Lubbock, 33 at Wichita Falls and 35 at Abilene and Big Spring.

The telephone company said the ice at Amarillo already was the worst of the season. Precipitation continued.

Rain fell during the night over

See WEATHER, Page 9

## *Principal, Coach Threaten Shoot Hooded Klansmen*

LAKEVIEW, Ga., Feb. 5.—(AP)—A threat to tar and feather left a coach and a high school principal calm, unfrightened and ready to shoot it out with the Ku Klux Klan.

And when hooded Klansmen burned a cross in front of Coach Walter Bowland's home on Jan. 16 while he was away, his pregnant wife picked ocer the fiery symbol and called the masked riders "yellow cowards."

Bowland said the threat followed a fight he had at the school gymnasium with a student.

He said he had appealed to Sheriff Jim Moreland of Catoosa county for protection but had been refused.

Bowland said he had collected three shutguns, an automatic rifle, ammunition and a blackjack to meet future Klan demonstrations.

"I may get shot, but if they come into my yard and threaten me I am going to shoot some of them," he added.

Principal John B. Burks, ordered to get Bowland out of town or face tar and feathers himself, had this to say:

"I have a pistol and ammunition. If they come to my house making threats I am going to shoot someone."

Pretty Mrs. Bowland's comment: "Now just who do they think they're scaring?"

***Dixie Revolt Meeting Set—***

## *Civil Rights Block Is Sought*

**BULLETIN**

**WASHINGTON, Feb. 5.—(AP)—The Senate Labor Committee today approved legislation to set up a national commission against job discrimination on grounds of race, creed or color.**

By The Associated Press

Rebellious Southern Democrats hope today to block one of the civil rights measures President Truman wants enacted, while in Jackson, Miss., Governor Fielding L. Wright called a statewide meeting to launch a revolt against National Democrats.

The bill opposed by the Southerners would create a national commission against job discrimination on grounds of race creed or color.

**Vote Schedule**

The senate labor committee was scheduled to vote on it at an afternoon session.

Foes and backers of the measure agreed the vote would be close.

Mr. Truman declined to comment today on Southern opposition to his civil rights proposals.

Asked at a news conference what he thought of the reaction of some Southern senators and governors, the president replied that he had no comment and added that the comments are being made by the press itself and over the radio.

The Mississippi governor called for representatives of all precincts in Mississippi to attend a meeting in Jackson on February 12, asserting that:

**"Leadership in South"**

"Every precinct in the state must be thoroughly organized so that the Mississippi Democratic convention will be composed of delegates dedicated without equivocation to the principles that have been so long a vital part of the heart and mind of every Mississippi Democrat."

"We will take the leadership in the South," the governor declared.

"On February 12," he continued, "we will mobilize for an all out fight.

"And I am confident that this militant leadership on the part of Mississippi, the most Democratic state in America, will spread like wildfire across the entire South and sweep before it all those who today stand as enemies of our institutions and our way of life."

**Anti-Lynch Law**

Mr. Truman touched off a political explosion in the Dixie wing of his party earlier this week when he urged congress to act on a 10-point civil rights program. Besides at fair employment set-up, it calls for an anti-lynch law and other measures which always bring deep-South Democrats to the boiling point.

They have denounced Mr. Truman, talked of calling a Rump convention to break away from him politically, and have discussed shutting off funds from the South earmarked for the Democratic party.

Senator Hill (D-Ala), a labor committee member, told a reporter the Fair Employment bill would "create bitterness and resentment and do much more harm than good."

See CIVIL RIGHTS, Page 8.

## Soviet Production At Prewar Level, UN Is Informed

LAKE SUCCESS, Feb. 5.—(AP)—Russia was reported today to have informed the United Nations that Soviet economic production is back to perwar levels.

This information was contained in a report of the Soviet state planning commission which was handed to the U. N. secretariat by Soviet Deputy Foreign Minister Andrei A. Gromyko.

The report previously had been published in Moscow.

The Soviet data arrived too late for inclusion in the U. N.'s first big survey on world economic conditions issued last night.

U. N. officials said this was the first time Russia had supplied the U. N. with production data of any kind.

The 257-page report compiled by the U. N. department of economic affairs contained these major conclusions:

1. Food shortages continued to be the world's top economic problem.

2. The United States is the only big power exporting more than importing.

3. Inflationary price movements threaten to destroy progress achieved in European recovery.

4. Concerted national actions are needed to keep down prices in foreign trade.

## *Mrs. FDR Slated Speak Before UN On Human Rights*

LAKE SUCCESS, Feb. 5.—(AP)—Mrs. Franklin D. Roosevelt was called to speak before the United Nations economic and social council today.

She appeared as chairman of the U. N. commission on human rights to present a report on her group's recent Geneva meeting.

The 18-nation council decided to hear her after overruling objections from White Russia. Delegate Leonid Kamingsky contended the council had had no time to study the commission's work and it would be premature to listen to Mrs. Roosevelt now.

The council turned to the human rights discussion after hearing Britain and Russia exchange political accusations Britain charged Russian activity in Eastern Europe made the Soviet Union an "expanding imperialist power." Russia called the accusation a "monstrous falsehood" and said Britain was using the council for "hostile propaganda against the Soviet Union."

The Security Council scheduled more debate on the India-Pakistan quarrel over Kashmir.

The Palestine partition commission planned a discussion of the composition of an advance party to be sent into the Holy Land, possibly within 10 days.

## Air Line Plans $5-Million Suit Against Pilots

MIAMI, Fla., Feb. 5—(AP)—Notice of a $5,000,000 damage suit was filed by National Air Lines against the Air Line Pilots Association (AFL) today following a pilot's strike which caused the company to suspend operations.

The notice of suit was filed in the Dade county (Miami) Circuit Court. The Pilot's Association, headed by David L. Behncke of Chicago, was given until March 1 to answer.

Alfred McCarthy National Air Lines attorney, said:

"This action is one for libel and slander and is based on the unwarranted charge by the union that this company's aircraft were unsafe."

Behncke was quoted from Chicago as describing the cause of the pilot's walkout Tuesday night as being in part due to concern over air safety because mechanics had been on strike for two weeks.

The ALPA chieftain also alleged "notoriously poor pilot-management relations."

All planes on the NAL System serving 11 states and Cuba have been grounded since the pilot walkout.

**IMPROVING A-BOMB**

NEW YORK, Feb. 5—(AP)—Chairman David E. Lilienthal of the Atomic Energy Commission said today this country is "improving" the atom bomb. The threat exists, he said, that atomic energy will be used "for destruction on a scale that has not yet been disclosed."

Lilienthal declared that the "principal and perhaps the only solid hope" for preventing this is for "people everywhere to come to understand the atomic world."

## Four Men Overpower, Tie Up Jailer, Flee From County Jail At Marshall

MARSHALL, Tex., Feb. 5—(AP)—Four men fled from the Harrison county jail here last night after overpowering and binding up the night jailer, Deputy Sheriff E. B. Harbuck.

Three of the prisoners were convicted members of an automobile theft ring, rounded up last fall after an East Texas chase in which officers used airplanes for spotting.

The three, Thomas Weatherford, 18; Clarence Thompson, 19, and Theo Hullett, were convicted at Tyler on automobile theft charges and were brought here for trial on further charges. All were charged with car theft and burglary.

The fourth man, Robert Wilson, 27, of Marshall, was awaiting trial on a charge of stealing clothing and other property from a tourist court here.

The escape occurred about 9:30 p. m. It was some time before Harbuck could free himself and give an alarm.

Police in this section of Texas, Arkansas and Louisiana were notified of the escape. Road blocks were set up last night.

Harbuck gave this account of the escape:

One of the men had hidden behind a lever box in the jail runaround and leaped upon him when the other three called the jailer to the cell block.

The prisoner pinned Harbuck against the cell bars and removed the cell keys from his pocket. The three other men were left out of their cells and the jailer was tied up.

The men unlocked a door leading into the jail office, ran through an unlocked outside door and climbed a fence surrounding the jail.

A short time later an automobile was stolen in south Marshall about 10 blocks from the jail.

Weatherford, Thompson and Hullett were members of a group of young men and women arrested in Tyler and San Antonio last November after a series of car thefts and burglaries in Texas, Mississippi and Alabama.

## New Way To Ban Red Activity In U. S. Considered

WASHINGTON, Feb. 5—(AP)—A hunt for new legal weapons to use on Communists got under way in congress today with a proposal to expose Reds rather than suppress them.

Rep. Mundt (R-SD) suggested: Make them register with the Justice Department as foreign agents and thus strip off their "dark mantle of secrecy."

Mundt is acting chairman of the house on un-American activities committee. And he was the first witness at hearings before a subcommittee studying anti-Communist legislation.

Attorney General Clark was standing by to offer his views.

The subcommittee, headed by Rep. Nixon (R-Calif) has lined up prominent lawyers, former diplomats, writers and historians for two weeks of hearings.

"We are sure," Nixon told a reporter, "that Communists owe their only loyalty to Russia and we want to find out whether present laws are adequate to deal wtih them or stronger laws should be enacted."

In his lead-off statement prepared for the hearing, Mundt said his plan would not even deny

See COMMUNISM, Page 10

## Wheeler Rejects AFL Political Job

MIAMI, Fla., Feb. 5—(AP)—Former Senator Burton K. Wheeler of Montana today turned down the $20,000-a-year job as director of the AFL's political campaign, but agreed to "advise" the labor organization without pay.

Wheeler said he had a "considerable" law practice in Washington which prevented him from devoting full time to the AFL's political program.

Some council members preferred to give the task to Secretary-Treasurer George Meany, the husky ex-plumber whose influence in the AFL has been rising fast in recent months.

## Truman Declines Say Flatly He'll Seek Nomination

**WASHINGTON, Feb. 5.—(AP)—President Truman declined again today to say flatly he will be a candidate this year.**

**Told that Senator McGrath (R-RI), Democratic National Chairman, had said he was going ahead on the theory Mr. Truman will be the party's standard bearer, the President laughed and said that was a good hunch.**

**"You mean that Mr. McGrath's hunch is a good one?" a reporter asked.**

**The President then hedged a bit, saying it could be.**

**In response to another question he said he had not discussed with anybody the placing of a Southerner on the Democratic ticket for vice president.**

## *Farmers Accused Curbing Output For High Profits*

WASHINGTON, Feb. 5.—(AP)—The CIO United Auto Workers declared today industry and farmers are holding down their output to keep their profits high.

The result, declared UAW President Walter P. Reuther, is a "creeping Pearl Harbor" which threatens both European recovery and U. S. living standards.

Instead of talking about possible cuts in the $6,800,000,000 starting cost of the Marshall Plan, Reuther said, congress should think over whether it should be increased to make sure the plan will work.

He said the old saying which goes "Now is the time for all good men to come to the aid of the party" should be shortened to read:

"Now is the time for all good men to come to."

Reuther gave his views in a statement prepared for the senate foreign relations committee.

## Man, Woman Held Connection With Death Of Grimes

Two persons are in custody in connection with the recent death of Johnnie Leon Grimes of Corsicana, Sheriff David Castles revealed this morning.

Grimes was found in an unconscious condition on Highway 75 north of Angus, several miles south of Corsicana, Sunday morning, January 25, suffering head, internal and hand injuries. He died the following afternoon without regaining consciousness.

Grimes had been seen in Mexia and statements taken from several witnesses, the sheriff said, pointed out he had been picked up near a Mexia cafe about midnight and later had gotten out of a car near the site where he was found.

Foul play was suspected and an investigation has been in progress by county, state, city, precinct and army officers.

A man and a woman, said by the sheriff to have been occupants of the car in which Grimes is said to have ridden from Mexia to a point near Angus, are in custody. No formal charges have been filed and investigations are continuing in Corsicana and other points.

## March Of Dimes Campaign Comes To Close Friday

Solicitation from the public for funds in the tenth annual March of Dimes drive will close Friday night.

Downtown barrels probably will be left on the street Saturday, W. H. Cruse, county campaign director, said.

He issued a last minute appeal to contributors to send their checks to the March of Dimes Campaign, P. O. Box 261.

Because of muddy roads and bad weather a complete report from county sections was not expected before Monday or Tuesday.

## Reach Agreement In Cotton Mills, Union Dispute; NLRB Must Approve

An agreement and stipulation was entered in the NLRB hearing Thursday morning involving the Corsicana Cotton Mills and the United Textile Workers of America, AFL, ending the hearing that has been in progress at the courthouse the past several days.

Under the agreement, subject to approval of the NLRB, the management reinstates one discharged employe, agrees to pay $1,000 for loss of time, and recognizes the textile union as the collective bargaining agency.

**No Discrimination.**

Management, according to the agreement, also will not discriminate against any employe for union activities, etc.

Louis Plost, trial examiner, Washington, D. C., had been conducting the hearing after the union had filed charges.

The charges were that management of the Mills had refused to bargain with the union and also had discriminated against certain employes for union activities, etc.

**Worked Re-Instated.**

Clara Blakney was the worker re-instated under the agreement, and is to receive the $1,000.

The agreement pointed out that the management agrees to bargain collectively with the union exclusively, cease discrimination against members and not interfere with or coerce employes for labor activities.

It also provided that management would rescind or amend rule posted on the Mill property Aug. 15, 1946, prohibiting union activities on company property so as to conform with the National Labor Relations Act as amended.

**Disposes of Charges.**

The stipulation also provided that the agreement disposes finally of all charges brought in the action.

W. R. Herod, vice president of the Textile Workers Union, when asked by the trial examiner if he had any statement to make or to be included in the record, he answered that he had nothing to say.

The hearing was adjourned subject to the approval of the stipulation by the Labor Relations Board.

H. L. Moller represented general counsel of the NLRB and John M. Scott of Fort Worth represented the Mill.

# COLD KEEPS LOCAL UNEMPLOYED AWAY FROM TES OFFICE

The labor picture in Corsicana and Navarro county was in a paradoxical position as January went out freezing.

The local office of the Texas Employment Service closed its books on January 24 for statistical purposes. At that moment the situation was shining. Only 103 new applications for work had been received. But between Jan. 25 and Feb. 4 there were 57 new applications, indicating that during the cold wave unemployed workers hugged the stove as closely as possible.

Although the end of January brought about a definite increase in the number of job applications, the county came through a cold January "with a minimum of scars and scratches," according to W. P. Reedy, manager of the TES office.

**103 Applications**

Of the 103 applications filed in January, only 19 were veterans of World War II. This compared with 113, including 49 veterans, during December.

Compared with 1947 and 1946, however, these figures look small. In January, 1947 there were 310 work applicants, including 101 veterans. In January, 1946 there were 815 applications, including those of 322 war veterans.

Claims for unemployment benefits, both veterans and state claimants, also dropped slightly below that of December, but the claim load is expected to increase rapidly within the next few weeks because it is found that most unemployed individuals do not immediately file for benefits, hunting around for work on their own initiative, Reedy said.

"The forecast for the next 60 days indicates a slight improvement over present conditions if the weather permits farm activity to get underway," Reedy said.

"Building and construction trades should offer much improvement with the arrival of spring, and several production plants are anticipating an increase in production personnel in the near future."

The employment insurance is proving a small stopgap between jobs—and a welcomed one, Reedy said.

"Glowing figures and statistics do not buy groceries and pay rents for those who are unemployed, and the high cost of living is working many hardships on those who have failed to make a pay check during the *seve..l* weeks of bad weather," he said. "Those who are regularly employed in the low income group almost have to be engineeers to make ends meet. We can imagine the plight of those with no income whatsover."

**Relax in a Turkish Bath!**

## *Personal Mention Of Kerens Folk*

KERENS, Feb. 4.—(Spl.)—The Kerens Home Demostration C...b will observe Family Night at its next meeting, Feb. 6, in the home of Mr. and Mrs. Hardy Mayo.

Richard Sanders and Darrell Mabry resumed their studies at N. T.S.T.C. Tuesday after a between term vacation in Kerens with homefolks.

Among out of town friends who attended the funeral of Albert Berry Saturday were Mr. and Mrs. Henry Marconi and Henry McNight of Dallas; Mrs. Wofford Spencer, Mrs. Manly McGuffey, Mrs. Mary Carroll Wilcox and son of Athens; Mr. and Mrs. Oscar Truelove, Mrs. Sparks of Malakoff; Mr .and Mrs. Currie Butler, Mrs. Robert Daniel, and Mr. and Mrs. H. White, Corsicana; Mr. and Mrs. Reed Albritton, Bryan; Mr. and Mrs. Grant Westbrook and daughters of Itasca.

John Murphrey of Texas Tech, spent the week-end in Kerens with his parents, Mr. and Mrs. Pat Murphrey.

Mrs. Sallie T. Manning of Waco was a guest in the home of her sister, Mrs. W. T. Stockton last week.

Bobby Brister left Sunday for Austin where he will enter Texas U. for the spring term.

Homer Rendon made a business trip to Galveston over the week-end.

Jake Posey of Texas U., visited his grandmother, Mrs. Ada Queen Sunday.

Mr. and Mrs. V. D. Bruner and sons, Robert and James, accompanied their son and brother Dwain, to Waco Sunday, where he will continue his studies at Baylor.

Miss Jacqueline Reese left Tuesday for Lubbock, to enroll as a student at Texas Tech. She will be accompanied by her parents, Mr. and Mrs. Charles Reese.

Mrs. Lena Speed has returned home after a pleasant vacation in New Orleans.

Sen. James Taylor was to be the speaker for the Kerens P.T.A. meeting Tuesday afternoon.

Miss Cynthia Stockton of E.T. S.T.C., Commerce, spent the between term holidays in Kerens with her mother, Mrs. P. N. Stockton. She had as her guest while here, a classmate, Miss Barbara Wynn of Kingsville.

Mr. and Mrs. Will Sidney Price attended the funeral of Mrs. H. A. Barnett in Waco last Monday. Mrs. Barnett was the mother of their sister in law, Mrs. R. E. Price.

Announcement of the wedding of Joe Walter Speed of Corpus Christi and Miss Mary Alice Ivey, also of Corpus Christi, which took place at the Baptist Temple there Feb. 1, has been made. Speed was reared in Kerens.

**Parents of Son**

A son, Leslie Henry, weight seven pounds, seven ounces, was born Saturday to M-Sgt. and Mrs. Hubert Travis at Bruton, Ala. Sgt. Travis, formerly of Corsicana, is on recruiting duty with the U. S. Army.

Grandparents are Mr. and Mrs. H. Travis, Corsicana, and Mr. and Mrs. W. R. Miller, Mobile, Ala.

# Navarro Teachers Meet Tuesday At St. John's Church

About 70 members of the Navarro Unit of the Texas State Teachers Association met Tuesday night for the third regular meeting of the year at the auditorium of St. John's Parochial School with the teachers and members of the P. T. A. as hostesses.

The main speakers were Dr. Lorena Stretch of Baylor University who spoke on "Language Arts in the Elementary School," and Dr. M. L. Goetting, also of Baylor, who talked on "Languagt Arts in Secondary Schools."

Dr. Goetting stressed the following problems in connection with his subject:

1. Many high school students cannot read adequately, and the study of reading should be continued as long as needed.
2. There is a need for continued emphasis on the basic skills, spelling, handwriting, reading, punctuation, etc.
3. There is also a need for integration of subject matter.

The business meeting was in charge of Mrs. G. E. Ramsey Sr., president, and the program of entertainment was directed by Miss Miri Craddock.

Special songs were furnished by John Gravelle, accompanied by Miss Margaret Pannill.

Dr. Stretch stressed the teaching of reading as a key subject in elementary schools. She pointed out that a teacher cannot do much about the I. Q. of a child but can do much about improving the mechanics of teaching.

Physical defects, the speaker said, often affect a child's ability to learn, and it is imperative that the wise teacher consider the interests and mental maturity of the pupil.

## *Pioneer Club At Kerens Convenes*

KERENS, Feb. 4.—(Spl.)—The Pioneer Literary Club met Friday afternoon, Jan. 30, in the home of Mrs. Andrew Talley for an interesting study of "Panama and Other Countries of Central America," with Mrs. Will Sidney Price as leader. In her discussion of Panama, Mrs. Price told of the building of the Panama Canal, which was completed 381 years after Charles I of Spain saw the necessity of such a canal.

Other participants on the program were Mrs. F. L. Hulan, who told of the land, products and legends of El Salvador and Costa Rica; and Mrs. Dale Mabry who gave a vivid picture of the people, customs and myths of Guatemala, Honduras and Nicaragua.

The president, Mrs. Joe Sheppard conducted a routine business session during which a leave of absence was granted Mrs. Jack Fite, who is making her home temporarily in Athens.

The newly decorated Talley home with arrangements of rainbow asters and pink gladioli placed at vantage points in the living room made a lovely setting for the meeting which was attended by a large group of members and one guest, Mrs. W. L. Bain, Sr.

**Announce Arrival of Son.**

**How women *and* girls *may* get wanted relief *from functional periodic pain***

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help

1 Taken like a tonic, it should stimulate appetite, aid digestion,* thus help build resistance for the "time" to come.

2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardui. If it helps, you'll be glad you did.

LOOK INTO this 2-way help*

# State's Ranches, Farms Help Feed World's Peoples

By MARTHA COLE
Associated Press Staff.

Texas farmers had their problems of conversion to peace as serious as any industrial leader's, but the smoke of war is clearing.

Drought in 1946 brought feed shortages. A bumper crop of insects hit Texas cotton. Sheep and goat herds were weakened with internal parasites and a shortage of machinery hampered farm work.

A hungry world called for continued record production of food and feed crops and labor still was short.

**Farmer Pulls Through.**

But the Texas farmer and rancher pulled through.

"The Smoke Clears," the Texas A. and M. College extension service called its annual report of farm work recently issued.

"But when the haze lifted high enough that extension and Texas farm and ranch people could look ahead, they found that the shooting wasn't exactly over," the report observed. "War time shackles were still around."

To maintain high production records of war time, the extension service emphasized an over-all program of efficiency and economy in its first full year of peace-time operation after World War Two

**Big Troubles.**

When Texas has troubles they are bound to be enormous because of the very extent of the state—thousands of farmers and ranchers and millions of acres of land. Through meetings, press, radio, demonstrations, personal contact, circular letter and printed material, extension specialists and agents worked to help the smoke clear.

The main outline of the 1946 report revealed:

Beef Cattle—Long and severe drought in the West and Southwest parts of the state forced early marketing of cattle. Ranchers were urged to cull out their herds and select high quality foundation cattle. Over 2,000,000 head of cattle were dipped, sprayed or dusted against parasites.

**Much Land.**

Land—Over 128,000,000 acres of land were included in 130 soil and water conservation districts and nine wind erosion districts. In July, Texas A. and M. College installed a soil testing service to make recommendations to farmers for fertilizing their soil. All types of fertilizers used totaled 282,237 tons.

The need for pasture improvement with livestock prices. Field trials brought better use of weed-killers such as the new 2-4-D.

Cotton—The extension service emphasized the one variety of cotton community, in which all growers get together and plant the variety best suited to their area. In 1946, 337 communities, involving 36,500 growers planted 1 1-2 million acres of their adopted variety. Their per acre average was 198 pounds of lint when the state average of unorganized communities was 112 pounds.

**Cotton Insects.**

The cotton insect situation in 1946 was reported as "probably the worst in history." Over 22 million pounds of insecticides were used.

Labor—In general, the service said, a fear of a severe labor shortage was unfounded and the state had more labor than had been available since hostilities began. To compensate for shortages that existed the service placed more emphasis on work simplification.

## Hot Radiators

A hot radiator keeps your motor from performing as it should. We clean out all makes and models to make them run cool. If it's the radiator we can fix it.

# Pronghorn Antelope In Texas Number About 7,000 Now In Western Section

By TEX EASLEY.

WASHINGTON, Feb. 5.—(AP)—Pronghorn antelope, once almost extinct in the Trans-Pecos region of West Texas, now number about 7,000 and are well enough established to withstand the onslaught of hunters.

That's the word of the Wild Life Management Institute, which made a study of the situation in conjunction with the Texas Cooperative Wild Life Research Institute.

Furthermore, says the Wildlife Management Institute, the antelope are a definite asset to cattle ranchers. There has been one school of thought which held that the antelope competed to a costly degree with cattle on grass lands.

Studies reportedly disclosed that grasses form only 3.7 percent of the year-long diet of antelope browse forms 29.7 perecent and weeds 66.6 percent. An analysis of 89 antelope stomach samples taken during the hunting season showed only 2 percent grass by volume, supporting other figures which were obtained by observation of live animals.

The total overlapping of antelope feeding habits with cattle was 25 percent.

With sheep, the competition was marked down as 40 percent, and the following comment made:

"Competition on heavily stocked sheep ranches is so great in some instances that the antelope often die out completely with the resultant loss in a good ranch products. x x x

"Monetary returns accrue at the rate of $40 per buck paid by the hunter to the ranchman under the present regulations of the Texas Game, Fish and Oyster Commission. In addition, the antelope hold the weeds in check to some extent and also feed considerably upon weeds poisonous to livestock."

**Honored on Birthday**

Friends and relatives who visited E. B. Byrne, pioneer Corsicana and Navarro county resident, Sunday, included Mr. and Mrs. Gordon A. Dibble, Denton; Mr. and Mrs. Bernie Clement, Dallas; Mr. and Mrs. Clifford Petty, Dallas; Mr. and Mrs. E. G. Wendell, Dallas; Mrs. George Edmonds, G. I. Kent, Garland Kent, Melvin Kent, Will Peacock, Mr. and Mrs. C. B. McKinney, W. P. McCammon, Mrs. Tom Swearingen, Mrs. Jessie Cohagan, and Mr. Gentsch and daughter, all of Corsicana; and Mr. and Mrs. Bowden, Tupelo and others.

Mr. Byrne was 91 years of age Tuesday, February 3, but the birthday observance was held Sunday, Feb. 1.

# TubercularSurvey Scheduled Here

Plans are being made for a tubercular survey in Navarro county with free chest X-ray tests being given by the State Tuberculosis Association.

A representative of the association will be here Monday to meet with a group in regard to bringing the association's portable X-ray machine here at a future date.

Dr. Will Miller, acting director of the Corsicana-Navarro Health Unit, said the unit was sponsoring the Monday meeting. Representatives of schools and various organizations, doctors and others are being invited to attend the session.

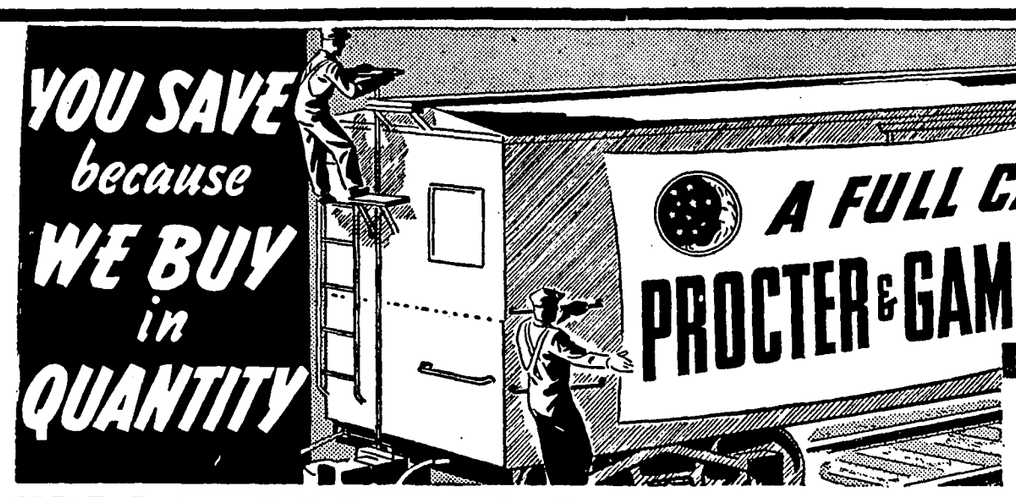

Dr. Miller said the machine usually averages taking 10 to 12 percent of a county's population.

In Angelina county this week the tests were taken by more than 5,000 residents.

From where I sit ... by Joe Marsh

Do You Have Noisy Neighbors?

A lot of the neighbors were suddenly annoyed by Jeb Crowell's hammering at night. Jeb was building himself a new front porch—and the only time that he could give to it was after sundown.

Finally we decided the best thing to do was all pitch in and help—and get the carpentry over with as soon as possible. We did. Finished the porch next evening—and Jeb gratefully treated us to ice cold beer and cider.

From where I sit, that's what being a good neighbor means. Instead of complaining about the other fellow's *habits*, try to understand and share his *interests*.

So if my practising on the flute annoys you, come on over, neighbor, with your fiddle or guitar and join me! Maybe it will end up in our knowing and appreciating one another better . . . in an evening of good fellowship. And I'll promise to provide the beer that *goes* with evenings of good fellowship!

## Militant Hindus Are Arrested By Indian Officials

NEW DELHI, Feb. 5.—(AP)—A high police official reported an intensive roundup is under way throughout India of prominent members of the militant Hindu organization, RSSS.

The RSSS—Rashtriya Swayam Sewak Sangh—has, along with the equally militant Hindu Mahasabha party, been the target of irate mobs since the assassination last Friday of Mohandas K. Gandhi. The accused slayer is described as a member of Hahasabha.

The official said the defendants were being charged with belonging to an unlawful organization. Rumors swept the capital that the RSSS had been outlawed by government decree.

Tuesday the government issued a decree banning private armies and organizations that preach violence and communal hatred.

Devandas Gandhi announced that plans had been completed to consign the bones and ashes of his father to the secred Hindu rivers of India.

## SOIL CONSERVATION DISTRICT NEWS

District Supervisors Navarro-Hill Soil Conservation District: Morris Crawford, chairman; W. C. Pearce vice-chairman Thad Jones, secretary; E. Creekmore and W. Lewis David members.

A simple method for the construction of terraces is being used extensively by farmers working with the Navarro-Hill soil conservation district. Known as the "island" system, it is used principally when terraces are constructed with a tractor and two-bottom moldboard or two-disk plow. The secret of this method is to leave an "island" of unplowed ground on the terrace contour line as a foundation on which to build the terrace. The completed terrace will give adequate protection and at the same time gives a surface that can be easily cultivated.

### Terraces Completed.

L. E. Ross of the North Powell conservation group, and R. M. Bowden of Tupelo conservation group completed terraces by the "island" method in January. Each completed one-half mile on his farm. The Ross farm is located two miles north of Powell and the Bowden farm is located 1-2 mile east of Tupelo.

J. R. English has sloped banks and shaped a 1500 foot waterway that is to be sodded and seeded to serve as collective outlets for terrace water. The English farm is located one mile north of Angus.

Mrs. Clara Deyo, whose farm is located three miles southeast of Purdon, recently purchased 150 pounds of buffalo grass seed and 35 pounds of yellow bluestem seed to be planted in the spring. Soil conservation service personnel of the Corsicana headquarters are assisting in the treatment of the buffalo grass seed.

### Collective Outlets.

Luther Montgomery of the Tupelo conservation group recently completed work on collective outlets that will handle run-off water from 1-2 mile of terraces when established. The area was shaped by use of a Texas terracing machine pulled by a farm tractor and sod chunks were placed in 3-foot rows and covered.

Six miles of terraces were completed in January by V. A. Lonon and W. M. Taylor of the North Powell conservation group. Four miles of the large ridge type terraces were completed on the Lonon farm and two miles were constructed on the Taylor farm.

Wade Arnett and Roy Harrison of the Dearmon Ridge conservation group, completed one mile of terraces each on their farms in January. Arnett's farm is located three miles southeast of Roane and Harrison's farm is located three miles northeast of Powell.

Mrs. W. W. Hemphill recently finished work on 1 1-2 miles of large ridge type terraces on her farm one mile north of Kerens.

# CHICAGO SERVICES FOR JACK WOLENS; DIED AT ROUSTON

Jack Wolens, aged 60 years, manager of one of the K. Wolens department stores in Houston, died Thursday morning at 5 o'clock. Funeral services are planned in Chicago Monday.

The local K. Wolens department store and warehouse closed at noon Thursday.

Surviving are three children, Mrs. Rochelle Pitluk, Richmond, Wash.; Walter Wolens, Shreveport, and Mrs. Dorothy Besserman, Allentown, Pa.; two brothers, K. Wolens, founded and head of the K Wolens Department Stores, Corsicana, and Al Wolens, Fort Worth; two sisters, Mrs. Nathan Sider and Mrs. Meyer Maremont, both of Chicago, and other relatives.

## Butane Shortage Threatens Homes At Gatesville

AUSTIN, Feb. 5.—(AP)—A shortage of butane gas by the end of the week threatens 400 homes at Gatesville, State Sen. Sid Gregory said here yesterday.

Supplies are insufficient to carry Gatesville butane users through the winter, Gregory said retail distributors have told him.

He expressed hope the governor's emergency fuel commission will be able to find more reserve supplies which would be diverted to domestic use.

William P. (Bill) Murray, railroad commission member and head of the emergency commission, has been unable to locate additional reserves of butane the past two days, his office reported.

A spokesman said Murray had predicted the extra amount released by producers and refiners would not be enough to alleviate the shortage completely after last week's severe cold spell.

# A. ROYCE SIMMONS FUNERAL SERVICES PLANNED SATURDAY

Funeral services for Adron Royce Simmons, 24, fatally shot Friday night in Martinez De La Torre, Mexico, will be held from the McCammon Funeral Chapel Saturday afternoon at 1:30 o'clock. Burial will be in the Prairie Point cemetery. The rites will be conducted by Claude A. Guild, minister of the Fifth Avenue Church of Christ.

Simmons and George William Bridewell, 31, West Plains, Mo., both employees of the Geophysical Service, Inc., Dallas, in Mexico, were found shot to death in their station wagon, according to an Associated Press dispatch. The bodies were sent to Mexico City where they were turned over to American authorities after an investigation by Mexican officials.

Surviving are his parents, Mr. and Mrs. A. L. Simmons, Powell; two brothers, Bernard Simmons, Andrews, and Raymond Simmons, Ballinger; two sisters, Mrs. Mary E. Gotcher, Andrews, and Miss Ollie Pearl Simmons, Powell.

Simmons was a graduate of Kerens High School.

Pallbearers will be Haywood Howell, Billy Parker, Ernest Gotcher, Reuben Red. Walter Williams and Gray Cook.

# Author of the Week

By W. G. ROGERS

ALAN PATON, author of "Cry, the Beloved Country," his first published novel, was born in 1903 in Pietermaritzburg, South Africa. He has traveide widely . . . his story was finished in the United States . . . but he writes about his native land and its people as he has known them. He taught in Ixopo, which is described in the novel. For 12 years he has been principal of the Diepkloof reformatory, in Johannesburg, and one of his principal characters is a delinquent boy and most of the novel is laid in Johannesburg. The question of race relations, which figures prominently in his book, has been discussed by him in numerous magazines.

# FRIDAY AFTERNOON SERVICES PLANNED FOR MRS. R. J. HODGE

Funeral services for Mrs. R. J. Hodge, long-time resident of Corsicana, who died in a New Orleans hospital Wednesday morning, will be held from the McCammon Funeral chapel Friday afternoon at 2 o'clock. Burial will be in Oakwood cemetery. The rites will be conducted by Dr. Matthew Arnold pastor of the Third Avenue Presbyterian church.

Surviving are a son, Guy Hodge, Mission, and a daughter, Mrs. C. C. Middleton, Pasadena, Calif.

Pallbearers will be Guy A. Patterson, Glyn Bell, Albert Bell, Claude Williams, Jack Brooks and Walter Beaton.

### Relax in a Turkish Bath!

# Baseball Meeting Held Here Monday By Junior Teams

Plans for the first year of baseball competition in the Texas Junior College Athletic Conference, nort. zone, this spring were made at a meeting of the schedule committee at the Navarro Hotel here Monday afternoon, Ray Waller, president of Navarro Junior College, announced.

Five colleges will enter baseball teams. They are Navarro, Henderson County, Clifton, Allen Academy, and Lon Morris. A home and home schedule will be played, with games scheduled each week-end, beginning on March 27.

The north zone, overcrowded last year during football competition, w divided into eastern and western divisions, and a play-off between them arranged. Thus, instead of having to play eight or more conference games, as was the case last year, each team will have only four or five, in addition to the division and zone play-offs.

The eastern and western division also applies to basketball competition.

In the east zone is LeTournean Tech, Allen Academy, Carthage, Texarkana, Texas Military of Terrell, Lon Morris, Henderson County, Westminster and Navarro. All these teams will not field grid teams, but would be in this zone if they should.

West zone members are Hillsboro, Clifton, Weatherford, Decatur, Ranger, Cisco and Temple.

Tentative football schedules were worked out, subject to change between now and the opening of the grid season, should the need arise.

## Hensley Field Recruits Wanted

Sgt. Walter Miller and Jesse Clary are in Corsicana seeking recruits for Hansley Field, Dallas.

Sgt. Miller stated he would make his headquarters at the local recruiting office for the next two da··· w re he will be glad to interview applicants and explain the many opportunities now offered by the rmed services.

## That 'New Look' Keeps Smart Bears Awake

AUGUSTA, Me.—(AP)—Maine bears look "more like college boys than ever" Game Warden Moses Jackson reports.

"They're wearing that new look," he said, "with fur coats well below the knee."

He and other wardens reported that for some unexplainable reason, bears are wandering about the forests this winter instead of hibernating as they usually do.

# Jesuit High Wins Over Corsicana Wednesday Night

Jesuit High School Rangers made their wins two in a row over the Corsicana Tigers when they copped their Wednesday night game in Dallas, 37-33.

Trailing 17 to 18 at the half, the Rangers overtook the Bengals in the third period and protected their four-point margin with effective stalling tactics during the final two minutes. Corsicana was assessed 23 fouls.

Buddy Ragley of the Rangers was high point scorer with 14 points. Leon Wylie and Bill Davic paced the Tigers with 13 and 10 points, respectively.

The Corsicana B team won over the Jesuit B five, 22 to 16, with Custer's 10 points setting the scoring pace for the victors.

Corsicana outscored the Dallas continnent only in the second period when 10 points were amassed to five for the Jesuit clan.

**The Box Score**

## Edward M. Smith Is SMU Graduate

Edward M. Smith, son of Mr. and Mrs. E. E. Smith of 1417 West First avenue, was a member of the graduating class of Southern Methodist University Wednesday, January 28.

Smith is a graduate of Corsicana High school and attended Hillsboro Junior College and the University of Texas prior to his enlistment in the service. He has attended SMU since his discharge from the army air corps. He was among the top engineer graduates and has accepted a position with the General Electric Co. in New York.

He and his wife will leave for their new destination March 1, where he will be employed for a year as an observer of electrical production. At the termination of this training period, he will be assigned to one of the General Electric branch offices.

## Horse Gets Both Finger and Corn

Add to unusual accidents.

A farmer near Streetman suffered the loss of a finger recently when a horse bit the digit to such an extent that amputation was necessary.

The story as related to the physician was that the farmer had recently purchased the horse—and as he was petting the equine he fed him shelled corn from his hand.

The horse was extra hungry—or at least took too large a bite—getting both finger and corn.

## Milton Spurgeon Enrolls At SMU

Milton Spurgeon, who was a starting tackle on the Navarro Junior College grid team during the 1947 season, and a former Corsicana High School gridder, has entered SMU, and will be a candidate for the tackle position on the Mustang squad during spring training.

Spurgeon, who weighs in at 240 pounds, was one of the regulars on the Navarro grid team. He is the son of Mr. and Mrs. M. A. Spurgeon of Corsicana.

# Local Five Came From Behind To Annex Contest

By TALMADGE CANANT
Sun Sports Staff.

Navarro Junior College won its first conference basketball game of the season Wednesday night, beating Texarkana Junior College 47-44 in a game that had every fan that crammed the Junior High gym, on his feet yelling.

The Bulldogs did it the hard way, too, coming from behind a 10-point lead to tie the score at 42-42 at the end of the regular period of play, and collecting five points in the evertime period of five minutes.

Haynie-Ray's Powell cagers plastered a 33-15 defeat on the Waco Veterans' Administration team in the curtain raiser.

The Navarro-Texarkana game started just as any other game, but with the Bulldogs looking sluggish and uninspired. Texarkana drew first blood via a free toss, and went on to get a 14-4 lead in the first eight minutes and then widen their lead to 12 points at 18-6. The Bulldogs hung on, and the half-time score was 27-17, with Texarkana on the long end and apparently in no trouble.

**Bulldogs Rallied.**

Midway in the second half, the Bulldogs began to narrow the margin, but in a slow manner, gaining a goal only to have the visitors match it Jack Holland, who played his best game of the year, and J. H. Justice pumped goals through the hoop in the final two minutes of the regular period to narrow the margin to 40-42, in favor of Texarkana, and Charlie Smith checked one in under the basket in the last 30 seconds to tie the score at 42-all.

Throughout the regular game, Navarro had never been ahead, and the crowd, which had almost become reconciled to seeing the locals drop another game, went wild as the final whistle blew.

After some discussion Coaches Ken Clark and George Luckett and the officials agreed to a 5-minute overtime period of play to decide the outcome.

**Forged Ahead.**

Oliver Littlejohn put the Bulldogs ahead in the opening seconds of the period sinking a free toss to make the tally 43-42. Kormos added another free toss shortly after to give the locals a two-point margin, but two free tosses by Texarkana's Dowd tied the score up at 44-44.

With 90 seconds to play, Charlie Smith shot for the basket and hit, but was fouled by Barolin, Texarkana's 6 feet 8 inch center. The goal was allowed to stand, but it was Barolin's fifth personal foul of the evening, and he went out of the lineup. Shortly after, L. Young, another of the visitor's starters, went out of the game via the same route.

Young fouled as Littlejohn was shooting, and the shot went wide. Littlejohn then sank the free toss to make the final count 47-44 as the overtime period ended.

**Rough Melee.**

It was a rough game from start to finish. A total of 46 fouls were racked up for both teams. Navarro committed 22 and Texarkana 24. Navarro converted 13, while the visitors converted 14.

At the end of the game three of Texarkana's first string men had fouled out, and Dan Davidson, starting Navarro center, went out early in the second half via the foul route. He had guarded Texarkana's Barolin closely, and held the elongated cager to 11 points.

**Teams Are Tied.**

The win left Navarro and Texarkana tied for the cellar position in the zone, with one win each.

The work of the Navarro substitutes was superb, and much of the credit for the win goes to McNabb, Kormos, Holland, Hodges and others. Their relief work was more than creditable.

Dan Davidson's defensive work was good, and the entire starting lineup showed up well after starting slow.

**Box Score.**

## College Spring Semester Starts

Spring semester classes for Navarro Junior College began Monday morning, Ray L. Waller, president, revealed Tuesday.

Inclement weather conditions and icy roads last week caused the postponement of classes from Wednesday to Monday.

A meeting of the regents of the college was scheduled Tuesday afternoon.

## Plan To Attend Fairfield Meet

Representatives of the Chamber of Commerce will go to a luncheon Friday at Fairfield to meet with a group in the interest of Highway 75 improvements.

John F. Adams, chairman of the highway and roads committee, Mayor Hubert T. Braselton, Herman R. Brown, manager of the chamber, and John R. Corley, immediate past president, were expected to attend.

Eat With Brewer—South Highway 75.

# State Home Cops Cage Tournament Over Richlanders

The State Home made a clean sweep of first places in the State Home Invitation Basketball Tournament Tuesday night as the Lads won the boy's division championship by downing Richland, 23-13, and the Lassies eked out a thrilling 12-10 decision over the Frost girls.

The Lad B team took third place, beating Barry 17-15, and the Barry girls took third place in the girls' division by trimming the Lassie's B team 18-7.

Two State Home girls and two State Home boys were among the members of the two all-tournament teams, all of whom received silver basketballs.

The all-star teams were as follows:

Girls—Downey, State Home; Alford, State Home; Braly, Barry; Hooser, Frost; Fleming, Richland; and Fredrick, Frost.

Boys—Jones, State Home; Phillips, State Home; Williams, Richland; Braly, Barry; and H. Tidwell, Richland.

## Declares Tax On Margarine Unfair

"The cotton farmer and the consumer, both victims of unfair federal and state regulations restricting the sale and use of cottonseed margarine, can unite now and rid themselves of legislative abuse that has prevailed for more than sixty years," C. C. Roberts, Manager, Southern Cotton Oil Co., said here today.

"The enactment by Congress in 1886 of heavy taxes designed to put margarine makers out of business deprived the cotton farmer of much income and the housewife of an economical source of energy-building food," Roberts said.

"The average housewife pays a federal excise tax of 10c per pound on colored margarine and 1-4c per pound on uncolored margarine. Two-thirds of the nation's grocers are prohibited from handling a native farm product because of a retailer's license fee of $48 a year on colored margarine, $6 on uncolored. Manufacturers must pay an annual license fee of $600. In 24 states the sale of colored margarine is barred entirely."

# First Round Cage Contests Reported Richland Tourney

The Rice and Powell boys and the Powell girls came through with victories in the first round games of the District 36-B east zone basketball tourney which began Wednesday night at the Richland gym.

The Rice five trimmed Kerens 31-20. Emmett's 10 points was high for Rice, while Beale got 12 for Kerens.

The Powell quintet swamped Mildred's boys 42-20.

The Powell girls out-defended the Mildred girls in the best game of the evening, winning by a 6-3 score. Thompson of the winners scored all six of her team's points. Breasker and Johnston of the losers got 2 and 1 points, respectively.

Referees of the games were J. H. Compton and Bill Stokes, both of Corsicana.

Tonight, Feb. 5, Richland's girls meet the Powell girls at 6 o'clock to start the competition. At 7 o'clock the State Home Lads play the Rice boys, and at 8 the State Home Lassies play the Rice girls, who drew a bye in the first round.

## Fire Department Receives Check

A check for $100 was received by the Corsicana fire department Tuesday from M. B. Moseley, city secretary of Ennis as a form of appreciation for co-operating in Ennis' recent downtown fire.

The local department sent one truck and two men through freezing weather to aid in fighting the fire.

"This is a very small token of our appreciation for the wonderful help you gave at our recent fire," Moseley wrote. "We sincerely appreciate it."

Fire Chief H. P. Elvins said the money would go to the firemen's recreation fund.

Also received Tuesday were two cartons of cigarettes and a box of cigars from Fritz Lancton, whose home was damaged by fire during the recent freeze. Although too far from water, the blaze, which already had started creeping up walls, was controlled by the firemen.

**Heads Hereford Group**

FORT WORTH, Tex., Feb. 3—(AP)—R. Pryor Lucas of Berclair will head the Texas Hereford Association this year. Other officers re-elected were J. M. North, Jr., Fort Worth, vice-president, and Henry Elder, Fort Worth, secretary-manager.

Sun Want Ads Bring Results—phone your want ads to 163.

## Fewer Antelopes Killed This Year

AUSTIN, Feb. 3.—(AP)—Fewer anteelopes were killed in trapping operations this year than ever before in the state's game restoration program.

Ernest G. Marsh, assistant director of wildlife restoration for the state game commission, believes new techniques are responsible. Cotton mesh nets were used for traps. These are more pliant than wire mesh, and fewer animals were injured or killed by running against them.

The antelope program is complete. The commission moved 400 from the overstocked areas around Marfa and Alpine to understocked ranges in the western Edwards Plateau region and the Trans-Pecos.

The deer restoration plan is not quite finished.

So far, 1,500 deer have been moved from Arkansas county to unstocked regions in East Texas. Marsh thought the total would be 1,700.

Turkeys moved from South Texas to East and Northeast Texas totalled 300.

## Couple Matches In Bowling Loop Seen

Two games were played in the third round of the second half in the Corsicana Bowling Association Tuesday night at the Corsicana Recreation Center with the Marc Cloud Insurance team and the A&P Grocers downing the Daily Sun quint and the Bethlehem Supply Company, 2 to 1, respectively.

Both games were hard fought with the Newspaper boys dropping one of their games by the close margin of 8 pins while the Bethlehem crew were taking the first canto by a lone pin and dropping the third by 12 points.

Bebee of the Grocers won the individual series honors with three games of 169 183, 143 for a total of 495 while Bunk Cloud of the Insurance crew was taking individual single game awards with a line of 190.

Dr. Pepper will meet the Navarro Junior College team and the Leggett-Platt crew of Ennis will tackle the league-leading Texans in the feature contest Wednesday night. The results of the Tuesday night contest did not alter the team standings.

**District Meeting.**

Dr. Jared I. Cartlidge, pastor of the First Baptist church here and moderator of District 14 Baptist convention, presided at the district convention in Waco Thursday. Dr. W. R. White, new Baylor president, addressed the convention.

The district embraces Bosque, Coryell, Falls, Freestone, Hill, Limestone, Navarro, McLennan and Robertson counties.

# Junior Panthers Defeat Waco In Second Contest

The Panthters, Corsicana's hard-hitting junior high basketball crew, copped their second win over the North Waco Juniors Monday night in a tilt played in Waco. The locals trounced the Wacoans 30-18.

Coach J. H. Compton's crew had beaten the North Waco five in the finals of a recent tourney there.

Howard Chapman of the locals led the scoring with ten points.

The Panthers will play the Denton juniors here Thursday night, weather permitting.

# FORMER FIREMAN DIES AT BEAUMONT; FUNERAL TUESDAY

John D. Huitt, aged 69 years, former Corsicana fireman, died in a Beaumont hospital Sunday morning following a brief illness. Funeral services were held Tuesday morning in Beaumont.

Huitt was head fireman at the old No. 2 fire station here for 13 years before moving to Beaumont where he was employed by the Magnolia Petroleum Company prior to his retirement last year.

Surviving are his wife, Mrs. Bertie Huitt, Beaumont; two daughters, Allie Mae and Edith, both of Beaumont; two sons, Cessel, Houston, and Ralph, Austin; two brothers, Jim Huitt, Kerrville, and Arthur Huitt, Corsicana, and a sister, Lula Huitt, Corsicana.

## WAR AGAINST SNIFFLES

One thing generally known about the common cold is that no one knows what causes it nor what will prevent or cure it. One by one, other diseases are cornered and conquered, some completely and others brought down to such a low incidence as to be negligible, but the virus of the cold refuses to be trapped.

The annual cost of this plague is said to be two billion dollars, or roughly the amount which we are supposed to have spent to develop the atomic bomb. Investigators have proved that any isolated settlement, from Labrador to a tropical island, is free from colds until the arrival of a ship's crew with the sniffles. Neither wet feet, extremes of temperature nor exposure have anything to do with the contraction of colds, except perhaps to lower the resistance, say the researchers.

The one hard and fast rule to observe seems to be "Keep away from sneezers and snifflers," which is a fairly hard thing to do under normal working conditions.

The rule about spending a day in bed is a good one, too. It takes all strain—except that of the cold—from the patient, and lets his physical forces put their whole effort on curing it. It is also an excellent rule on the other side—that of passing the cold around. The fewer people who get near to the patient while the cold is in the first and most infectious stage, the better. It's a gift no recipient appreciates.

## CANADIAN PROBLEMS

Canada has restored price ceilings on meat and butter. The government will also ask a year's extension for its present right to control prices and rents.

Canadian problems are much the same as ours, and their policies have not differed widely. It is worthy of note that these new government plans have not provoked cries of "Communism!" from the Canadian public, or even from the industries affected. South of the border this would have been sure to happen.

Canadians usually take their problems more calmly than we do ours.

## AMERICAN LITERATURE

Less than a quarter of our colleges and universities require knowledge of American literature for graduation. This fact, brought out at a recent meeting of the National Council of Teachers of English, seems to have shocked those present. Actually, there is no reason why it should.

The most convinced patriot would find it hard to name many American writers who rank with the greatest of all time. Poe, Hawthrone and Whitman undoubtedly; Lincoln and Emerson at certain moments; Prescott and Parkham among the historians. Who else? Our recent Nobel prize winners, Sinclair Lewis, Eugene O'Neil and Pearl Buck can hold their heads up among today's writers. Time alone will give them permanent rank. What about Henry James, Willa Cather, Carl Sandburg, Stephen V. Benet?

Harsh as it may seem, American literature so far does not rank with English, French or German. But should not students learn about it anyhow? Good and bad, it is a vital expression of our civilization. Comparison makes a good basis for discrimination. If it's good, why? If not, why?

## Edgar A. Guest

### DIETITIAN

A dietitian course took
In college, learining how to cook.
She spends her time preparing plates
Of stuff she knows the patient hates.

She comes each morning to the bed,
Repeating what the doctor said.
Put in a plea for steak, she'll say:
"That's not permitted on your tray.

"You may have spinich, and perhaps
Some cauliflower or yellow snaps.
Dessert! O never cake or pie!
Instead a week-old crust of rye."

Though young and beautiful is she
Who brings her diet meals to me,
I think, however fair she look,
I would not want her for a cook.

## MAGIC PROGRESS

When the President at Washington asks Congress for a large amount of money including some definite items for atomic energy construction, it doubtless means business. And it is a business of a kind that would have been undertaken in no other era of human history. It means evidently that the Atomic Age has really dawned, that powers are now available which to ordinary men seem to partake of magic rather than sober fact, and which in the course of another generation may in a large degree transform the world.

It will be a grand thing to watch the unfolding of these new powers—that is, unless Satan also comes along. They must be held to White Magic and not the darker kind.

## OUR GESTAPO

Recently a shocking crime in a big city resulted in the arrest of a suspect, and his confession after hours of grilling. In his case other evidence appears to corroborate the confession. But often confessions come as a result of police third degree work, and frankly are worth no more than confessions wrung by the tortures of the Gestapo.

There is not much difference between the third degree and the Gestapo methods after all. It is fair to observe that we have certain other protections, such as habeas corpus, trial by jury, and the dictum that every man must be considered innocent until he is judged guilty, after presentation of evidence with a lawyer for his defense and so on. These give the accused a chance which he does not have in any police state. They modify the evil of the third degree—but they do not excuse it. When we charge other nations with wrongdoing we should remember to see that our own hands are clean.

## BENEFICIAL PLAY

Hobbies are fun for the person following them. It is a little more unusual to find that they can be useful. An amateur radio operator in Farmington, N. H., has managed to make his hobby qualify for both distinctions. During the fall forest fires that were so disastrous in New England he rendered fire fighters great service with his wireless. Recently he arranged a telephone conversation between a neighbor and her homesick soldier son in occupation forces in Germany. The radio addict is by vocation a bank president.

It doesn't matter much what the hobby is. It can be an apparently useless pursuit, senseless to all but the participant. It doesn't need to be of value to others, as was that of the New Hampshire banker. But everyone is better for some compelling interest outside his everyday affairs. The more different from his business, the better.

## TAXPAYER TROUBLE

More trouble ahead for the taxpayer! The city income tax is a coming danger. While only four cities have it as yet, there are likely to be more. Columbus, O., levying 1-2 of 1 per cent, and Toledo, O., with a 1 per cent rate, have found financial salvation in this new way of assessing their citizens. St. Louis, which adopted the idea in 1946, is already doing pretty well. And Philadelphia got $2,000,000 out of its income tax last year. That is real money, even for a city as large as Philadelphia.

The temptation is great. Most cities need more money, or at least can use it. The excuse for the municipal income tax is that it reaches the suburban dwellers who work in the big city but pay their taxes in their own villages. There will be more than four cities, probably, employing this new device. And whatever the rate which may initiate the tax, it will be raised later.

Taxpayers may not like this idea of city income tax. But it has one merit. It is out in the open and aims to be fair. It is hidden taxes that are the great evil, and those like the Ohio sales tax, put on for one purpose but never removed and now used for ends quite different, which are so unfair.

Nobody likes to pay taxes, but they are a necessary evil. They give us pavements and police and fire-fighting and many other useful services. But every citizen has a right to know what he is paying for and how much.

## FAVORED LOG CABINS

Whoever the coming presidential candidates may be, clearly not one will have arisen from the city poor. Youthful rural poverty in the Li coln-Garfield tradition is a vote-getting asset, but urban youth is not.

President Truman and Mr. Wallace come from moderate-sized communities. Senator Taft comes from a large city, Cincinnati, where his family has been well-to-do for at least three generations. Gov. Dewey, born in Oswego, Mich., was district attorney in New York City, but no one would think of him as typifying the humble stock from which Al Smith sprang.

Al Smith, in fact, graduate of the Fulton Fish Market, as he loved to say, is the only candidate ever nominated who had such an origin. His candidacy in 1928 was thought to herald a new political era. His overwhelming defeat showed that the time had not yet come for his type.

The 1948 line-up proves that 20 years later the time has not yet come. The city equivalent of the log-cabin birthplace is still not a political advantage.

## FAME FROM BOTTLES

Today's screen, stage and radio have developed stars whose doings are expanded by publicity experts and followed by an adoring public. Other ages had similar headliners. No single performer received more adulation from the public than did Jenny Lind, who from one end of the country to the other was the toast of young and old about 100 years ago.

After a successful stage career that began in England, she toured this country in concerts under the management of that great showman P. T. Barnum. She sang for American audiences only a few years, until she married her conductor, Otto Goldschmitt and lived in England until her death late in the 1880's.

Her name wasn't Jenny, but Johanna Maria. She was born in Stockholm. America took her to its heart as if she were one of us, calling her affectionately the "Swedish nightingale."

More than for her singing and acting ability, however, she is assured long fame because the glass works of her day made "Jenny Lind" bottles. These carry an imprint portrait of her on one side, her name on the other. They are the prized possessions or desires of the great army of antique collectors.

## POOR RICHARD'S ADVICE

Benjamin Franklin's maxim, "A stitch in time saves nine," while a poor rhyme, is nevertheless practical common sense, as were most of his sayings. This fact was brought out by General Dwight D. Eisenhowever last week in Philadelphia where he received the Poor Richard Club's 1948 medal of achievement.

Eisenhower called for universal military training, the European Recovery Program, and co-operation among the world's democracies. He said:

"Statesmen of today are moved by this saying when they plead that a dollar spent on the prevention of war is worth more than a score of dollars spent on its winning."

UMT, the General believes, will be evidence of our readiness to defend ourselves against any form of aggression and will discourage outsiders from taking the risk of attacking us.

Our country, in its youthful beginnings, listened to the sage counsel of Franklin, its elder statesman, and now, in its lusty, chaotic maturity, would do well to heed it again, as applied by a military man, who knows whereof he speaks.

## READING THE STONES

Niagara Falls had a rival—the outlet for a vast lake that covered much of New England and stretched from Hartford, Conn., over Brattleboro, Vt., Springfield and Amherst, Mass. The high natural dam that made the falls collapsed one day and the lake was drained suddenly to reveal the present Connecticut River valley. The waters rushed off to find a passage to Long Island Sound. Geologists say it happened 20,000 years ago.

The man largely responsible for digging out this fact of a prehistoric Niagara Falls, is Richard J. Lougoo, professor at Clark University, Worcester, Mass. For 19 years he has been studying clay beds and rock formations of this region, piecing together the fascinating story. One link eluded him until recently—the location of the waterfall. He stumbled suddenly on evidence that made his jig-saw puzzle complete. The falls had been at what is now East Haddam, Conn.

By concentrating for years on what had happened in New England 20,000 years ago, the professor escaped involvement in annoying events in the current era of this region. The hills and dales revealed more to him of their ancient history, than they do of their present to present-day citizens, most of whom don't really "see' the earth's setting in which they live. The geology professor would agree with the poet who said there were "sermons in stones, books in the running brooks." But it takes a poet or a geologist to discover them.

## A MAN'S JOB

## CIVIL RIGHTTS

CONTINUED FROM FIRST PAGE

Senator Ellender (D-La), also a member, predicted that if the bill was approved in its present form, the party revolt would blossom into a "real war."

Senator Taft (R-Ohio), the committee chairman, sent word to a reporter that he was willing to let the measure clear the committee but expected to vote against it in the senate. He did not say why.

The bill is sponsored by Senator Ives (NY), three other Republicans and four northern Democrats.

While the employment issue occupied senators, a house judiciary sub-committee was in the midst of a hot row over proposed anti-lynch legislation.

**Encourage Rape.**

Rep. Rankin (D-Miss) shouted during a hearing yesterday that this measure "ought to be called the bill to encourage rape."

But Rep. Clifford P. Case (NJ) and other republican sponsors of measures to outlaw lynching expressed confidence that a bill will go to the house floor soon.

They won support from such organizations as the American Civil Liberties Union, the American Jewish Congress and the National Associatio for the Advancement of Colored people.

Rep. Dorn (D-SC) told the committee lynching is decreasing every year, and added:

**Takes Time.**

"You can't legislate evolution. It takes time and no law is going to do it overnight."

Across the capitol, Senator McClellan (D-Ark) said that as a result of the President's program, he (McClellan) has proposed that the proceeeds of the Jackson-Jefferson-Day dinner at Little Rock February 19 be "frozen" until "we get some satisfaction out of the national committee."

And at Columbia, S. C., Democratic State Chairman W. P. Baskin said party leaders in his state have made no plans for a similar dinner and have so advised the national committee.

But committeee officials here said Baskin's letter to that effect was dated January 19, two weeks before Mr. Truman sent his message to congress. They added the tone of the communication was "friendly" and that Baskin had indicated a later dinner might be arranged.

On another sector of the Democratic front, Secretary of State Marshall has let it be known that: (A) he is no more available for the vice presidential nomination than he is for the top spot on the ticket and (b) he and Gen. Dwight D Eisenhower are in aggreement that no professional soldier should seek the presidency.

Marshall said months ago that he could not be "drafted" as a presidential nominee.

Mrs. Cletus Wray arrived in Dallas by plane on Wednesday evening from Albany, Ga., to visit at the bedside of her mother, Mrs. Will Middlebrook, who is seriously ill. Mrs. Wray was met in Dallas by her uncle and aunt, Mr. and Mrs. Bureligh Butler.

## TRUMAN

CONTINUED FROM FIRST PAGE

ment continued downward today.)

The president said the price situation still is alarming.

Then he was asked what the sharp break in the commodity and stock prices indicates.

**No Comment**

Mr. Truman said he has no comment, that he did not know enough about it yet to express an opinion.

He said the budget bureau charts show rises in just about everything the people buy since his anti-inflation message to congress Nov. 17.

Mr. Truman held up one of the charts. He asked the reporters to just look at what has happened to rents since the weakened rent control bill, due to expire this month, was passed last year.

It really is an alarming situation, the president added. Practically everything has gone up.

"Are you going to send t message to congress?" a reporter asked.

He replied simply that he was going to keep telling them about the situation, but he added they (in congress) know what's going on.

Mr. Truman said he thinks government power to control prices of commodities and ration them when necessary is essential.

If some way isn't found to stop the upward spiral prices will come down with a crash.

**Eat With Brewer—South Highway 75.**

## PRICES

CONTINUED FROM FIRST PAGE

"Had current wage rates been in effect, the company would have lost $28,400," Cluxton said. "The ber and other goods—showed the sharpest drop since September.

In Washington, signs were visible of a general tightening of bank credit.

Some trade experts predicted a general "deflationary trend," some said the price drop was just temporary—and most said they just didn't know.

Businessmen and officials found arguments on both sides.

Some economists pointed out that prices should continue steady because:

There has been no change in Europe's need for large amounts of American goods.

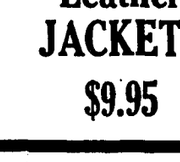

There has been no change in the high level of industrial activity at home.

But in Washington, Secretary of Agriculture Anderson said prices have been too high and that fact may have "begun to take hold of the markets," and the world's supply of wheat is greater than was expected a few months ago—which would be likely to cause lower prices.

Commenting on the bank loan situation, Secretary of the Treasury Snyder indicated that the government is going slowly on debt retirement for fear of throwing too much money out of circulation.

# Passing Game Of Bengals Feature Tuesday Evening

By TALMADGE CANANT
Sun Sports Staff

The Corsicana Tigers buried Cleburne's dribblers under a top-heavy 47-16 score in their second meeting of the season Tuesday night at the junior gym, to start the second half of district competition.

The Tiger Cubs likewise pasted the Cleburne B team by a 38-18 county in the curtain raiser.

The Tigers wasted no time in starting the score parade, as forward Max Carter zeroed in his sights on the basket from far out and stole the show in the first quarter while the Tigers were taking a 11-6 margin. Gradually Wylie, Crook and others began to connect, and the Tigers held a 27-7 lead at the halfway mark.

Going into the final canto the locals were ahead 41-10, and they scored six points in the remainder of the game while Cleburne was also getting six.

**Carter, Wylie Score High**

Max Carter and Leon Wylie racked up 13 points each to tie for high honors in the tilt, but the outstanding features of Bengal play was their passing game, which showed much improvement over previous showings.

It was an exceptionally clean game, a total of only 15 fouls for both sides being recorded. Cleburne fouled 5 times, and the Tigers converted three of them.

**Cubs Lead All Way**

Johnny Crawford and Charles Roy Bristow led the Cubs to their win over the Cleburne B team, connecting for 12 and 10 points, respectively. They were aided and abetted by some good floor work on the part of John Custer, Orville Langston, Walter Bond, and several capable reserves, who saw plenty of action.

The Cubs held the lead at the end of each period as follows, 13-6, 23-9, 35-15 and 38-18.

**Box Score**

# Bulgaria Seeking Death Penalty At Red Foe's Trial

SOFIA, Bulgaria, Feb. 4.—(Delayed)—(AP)—The Bulgarian state prosecutor tonight demanded the death penalty for Dimiter Gichev, former agrarian party leader and a deputy of the executed agrarian leader, Nikola Petkov.

Petkov, peasant leader and foe of Communism, was hanged Sept. 22 on charges of plotting against Bulgaria's Communist-controlled government.

The indictment of Gichev stirred the diplomatic colony of this capital, and was expected to arouse protests in the United States and Great Britain. Both protested the execution of Petkov.

Some regarded the indictment as a government step to eradicate the vestiges of opposition and make Bulgaria a one-party state.

One of the chief charges against Gichev was that he spread false rumors that Bulgarian farm products were being exported to the Soviet Union without payment.

Gichev has been held in jail for several months since the Agrarian party was outlawed by the government of Communist Premier Georgi Dimitrov.

He was twice a cabinet minister in pre-war Bulgarian governments and became an outstanding figure in the Agrarian party after the death of Alexander Stamboliski.

Bulgarian police arrested him last fall following the Petkov trial.

## WEATHER

CONTINUED FROM FIRST PAGE

most of Texas except the coast and it turned to snow and sleet in many Panhandle points around midnight. At mid-morning, Pampa reported one inch of snow.

Much of Oklahoma also was undergoing an ice storm.

Lubbock reported .66 inch of rain during the night. Other rainfall more than a tenth of an inch included El Paso, .42, Amarillo, .29, Salt Flat, .37, Guadalupe Pass, .23, Childress .22.

Minimum temperatures during the night included Pampa 25, Amarillo 28, Childress 30 and Lubbock 30. Highest minimum was 66 degrees at Brownsville.

The forecast was for continued freezing rain, snow and sleet in the northern parts of Texas tonight and tomorrow with occasional rain over the southern portion.

Temperatures were expected to change very little in West Texas but colder weather was expected for East Texas except in the extreme south.

Mrs. Tom Braselton has returned to Dallas after a visit in the home of her son, Mayor Hubert Braselton, and family.

# Spring Fashions Hit The Silk

CIRCUS PRINT . . . Ballet length cocktail dress in pure silk print, with new full skirt, offshoulder neckline, peekaboo sleeves

AFTER FIVE . . . Tulip print pastel silk makes this cocktail dress with revealing neckline, designed by Ceil Chapman

BUDGET SILK . . . This tailored silk shantung dress by Henry Rosenfeld is smartly tailored, geared to the most modest budget.

POLKA DOT SMOOTHIE . . . Youthful go-anywhere dress for spring and summer, in polka dot silk, with trim collar, full gored skirt.

By DOROTHY ROE
Associated Press Fashion Editor

SILK is back with a bang in the spring style parade, often at prices within reach of the average budget.

There are still plenty of $200 price tags on the pure silk dresses and suits turned out by top designers, but you also may find some "good looking ones at $25 or $30, by shopping around a little.

Now that the government has resumed silk importations from Japan, things are looking up for silk fanciers. Despite the excellence of synthetics developed during the war, there's something about pure silk that gives most women a feeling of luxury.

Present production of raw silk for U. S. use is about 10,000 bales a month, as compared to 60,000 bales a month before the war. Much of the prewar volume, however, was used for silk stockings—and stockings are among the few items of which the public preference now seems to be for the synthetic rather than the natural fiber.

It is predicted that the supply of raw silk to this country will soon be back to normal, and will keep pace with the demand. There are some manufacturing difficulties, however, as many mills converted from silk to rayon production during the war, and there are far fewer silk looms and trained skilled silk weavers than formerly.

Handsome new silks are seen in all spring fashion collections, however, and designers have welcomed the return of rustling silk taffetas, silk marquisette, velvet, faille and crepe. Pure silk shantungs also are prominent in the spring and summer picture, and silk lingerie once more is available at prices below the top luxury brackets.

# HOPE OF TODAY ARE MEN TO WHOM RELIGION IS REAL

## Crisis Calls For Consecrated Christians Whose Lives Are Inspired and Guided by Christ—Tragedy of Trivial Interests—Potentialities of the Millions Who Walk the Jesus Way.

By WILLIAM T. ELLIS and
EARL L. DOUGLASS

It may take the dropping of atomic bombs on New York and Toronto and other cities to waken the mass of mankind to a realization that we are living in an hour of supreme destiny. At a time when men and women should be prostrating themselves in an agony of penitence and entreaty, we find most people material minded, and busy with all kinds of toys. Millions are worshippers of false gods—particularly of the golden calf. Every day's newspaper brings us reports not only of criminal delinquency but also of sordid disloyalty. The line between profiteering and patriotism has become fogged. We have many local politicians and economists, but few great leaders who see the essential course for the nation to follow.

Against this back-drop the Sunday School Lesson considers the nature and work of Jesus of Nazareth.

The present picture is confused. From some standpoints Christianity is making wonderful progress, and showing new ingenuity and leadership. From another angle, we behold depressing irreligion and engrossment in material trivialities.

There is abroad in our land a world-mindedness which is in combat with worldly-mindedness. The gifts of the United States and Canada for the needy of the old world are a proof of the presence and driving force of practical religion.

**The Leader Has Appeared**

Marvelous beyond expression or comprehension is the clear fact that Jesus is increasingly accepted as Leader, Teacher and Saviour. We now behold Him and His works, after two thousand years of growing influence. He is dearer to millions today than He was to the disciples who walked the hills of Judea and Galilee with Him. There are multitudes, like the ninety-year-old preacher with whom I recently conversed, who interjected in his talk, with great fervor "Oh, how I love Him!" Jesus is dearer and more real and personal to myriads of disciples than any kinsman or any one bound by the ties of association and affection. For nearly two thousand years, despite all international overturns and crises, His power in the hearts of men has steadily increased. Time has tested and vindicated His character and mission as the sent Son of God.

It is the present vogue among some maudlin-minded ministers to surrender, in the name of tolerance, the Church's most precious convictions and heritage concerning Christ. Fortunately, they do not speak the language understood of the common people. This is a good day to sing the old hymn "Stand Up, Stand Up for Jesus." Our Lesson text not only makes it clear that Jesus came as the singular Son of God, and representative of the Father, but also primarily as a Saviour from sin.

**Greatest Or Worst**

We do not hear much discussion of sin, but we see its effects on the front page of every newspaper. It is the diabolical reality of our time and of our personal experience. What you and I, my reader, most need is to be saved from sin. And there is but one Saviour, who pursued His mission clear to the Cross and to the open tomb.

If Jesus was not what He claimed to be, the Saviour sent from God, the unique revelation of the fatherhood of God, the One having all power, then we cannot accept Him as anything but the world's greatest charlatan. His claims were infamous and preposterous unless they were true. A modern mood of eulogising Jesus, but denying Him His throne rights and His Cross rights, is simply not intelligent. He either was what He said He was, or else He was the most monstrous imposter of all times.

**The Climax of a Career**

Like His little band of disciples, we are slow to apprehend the real purpose of the coming of Christ. The angel message to Mary was, "Thou shalt call his name Jesus, for He shall save people from their sins."

Christ is no mere example, no mere teacher, no mere philosopher; He is a Saviour, sent to make clear the Way back to God for wandering, sinning children. This is the rock bottom truth of religion. Man's need of needs is to get right with God, and to that end God sent His Son to live a man's life, to take on Himself the iniquities of us all, and to offer Himself as sacrifice for the world's sins.

**SEVEN SENTENCE SERMONS**

Life is not so short but that there is always time for courtesy.
—Emerson.

The past cannot be changed, but the past can be left.
—Dr. W. L. Watkinson.

Just knows, and knows no more, her Bible true,
A truth the brilliant Frenchman never knew.
—Cowper.

Let the root be good and the fruit shall not be evil.
—Kang Hsi.

Thou art the Christ, the son of the living God.
—Matthew 16:16.

Within the brain's most secret cells
A certain Lord Chief Justice dwells.
Of sovereign power, whom one and all
With common voice, we Reason call.
—Charles Churchill

Quiet minds cannot be perplexed or frightened, but go on in fortune or misfortune at their own private pace, like a clock in a thunder storm.

*The Sunday School Lesson for February 8 is, "What Think Ye Of Christ?"—John 6:35-40; Colossians 1:9-20.

## Changes Planned At Courthouse

Basement floor offices at the county courthouse will be shifted around soon, and work has started on installing partitions to make room for the changes, E. Y. Cunningham, county auditor, said Thursday.

Partitions are being built in the AAA offices to provide for an office for Judge A. E. Foster and Constable Joe Allen, who share an office together. When the work is finished, Foster and Allen will move into the new office, and their old office will be taken over by the AAA, Cunningham said.

## PHONES

CONTINUED FROM FIRST PAGE

no return at all on its investment, Cluxton added.

**Costs Increase.**

"Had current wage rates been in effect, the company would have lost $28,400, Cluxton said. "The continuing upward trend of payrolls and other costs of furnishing service, make it necessary that telephone rates be adjusted to help offset the losses sustained here by the company each month."

The district manager pointed out that in 1946 telephone payrolls here were three times greater than in 1941. Current wages are even higher than 1946 ones, he said.

"With 270 families waiting for telephones, and others wanting to change from party lines to individual line service, we are faced with the problem of enlarging the telephone system here at a time when costs are at the highest level in history," Cluxton continued.

**Expansion Program.**

In its 1947-48 expansion program here the company is spending more than $250,000.

Among the projects completed last year were extension of rural facilities to make service available to 138 families on farms and in suburban areas; installation of two additional sections of switchboard, and 400 more subscribers lines; installation of an additional section of long distance switchboard and associated central office equipment; establishment of two additinoal long distance circuits to Dallas, and one each to Houston, Tyler, Waco, Hearne and Mexia; and a general expansion of the network of outside lines and cables throughout the city.

**More Subscribers.**

Construction slated for 1948 includes installation of six additional sections of local switchboard and 580 subscribers lines; installation of two more sections of long distance switchboard and associated equipment; further expansion of outside lines and cables; and adding two more direct long distance circuits to Dallas, one to Fort Worth and one to Kerens.

"We are proud that we have been able to enlarge Corsicana's telephone system to provide more than twice as many telephones here without increasing rates which were established in 1920," Cluxton said. "Now, however, costs of furnishing telephone service have risen so rapidly that the only solution is a reasonable increase in rates."

Mayor Braselton had no comment to make on the application.

## TAXES

CONTINUED FROM FIRST PAGE

1948 incomes. But the senate is widely expected to insist on a smaller reduction.

Chairman Millikin (R-Colo) of the tax-writing senate finance committee declined to forecast what the tentative budget goal might mean to the house tax bill.

But Senator Wherry (Neb.) acting GOP leader, declared:

"The Republican party is going to have to cut the budget a damned sight more than $2,500,000,000 to keep faith with the people and reduce taxes."

And Senator Barkley (Ky), the minority leader, told reporters after a meeting of the senate Democratic policy committees yesterday that chances for tax reduction this year aren't more than "fifty-fifty either way."

## COMMUNISM

CONTINUED FROM FIRST PAGE

Communists and rights under the Constitution which they "hold in such contempt."

Mundt praised the movie industry for starting to weed out Reds. But he said neither it nor any other industry can finish the job unless congress acts. By publicly identifying Communists, he said, his bill would enable both public and private employers to guard against them.

# Nazi War General Jumps To Death On Way To Trial

NUERNBERG, Germany, Feb. 5.—(AP)—Nazi Gen. Johannes Blaskowitz leaped to his death today shortly before he was to go on trial with 13 other German military leaders for war crimes.

Blaskowitz, 64, was a veteran of the Polish and Russian invasions and later commanded Nazi forces in The Netherlands. He broke away from a file of prisoners on the third tier of the high catwalks surrounding the prison rotunda.

**Guards Watch.**

As guards watched helplessly the general clambered up a seven-foot wire fence and threw himself over it, hurtling 80 feet to a tile floor.

He died in the 385th U. S. military hospital of a fractured chest and punctured lungs.

His colleagues were escorted into the U. S. court for the twelfth and last war crimes trial to be held in Nuernberg. They are accused for rearming for war even before the rise of Hitler.

Among the defendants are three field marshals, one admiral and nine other generals, all charged with crimes against peace and humanity. Prosecutors said this case might well "prove of greater importance to Germany than any other."

The top defendant is Field Marshal Wilhelm Ritter von Leeb, who was an army group commander in the invasion of France.

Blaskowitz had been charged with causing the deaths of prisoners of war and civilians in Poland, where he commanded the German Eighth Army. He had pleaded innocent on his arraignment Dec. 30.

The 13 remaining military leaders are being tried by an all-American court.

# JUNIOR COLLEGE BULLDOGS HONORED BY ROTARY BANQUET

By PAUL MOORE
Sun Sports Editor.

Coaches and athletes of Navarro Junior College were honored Tuesday evening in the second annual athletic banquet sponsored by the Corsicana Rotary Club at the Corsicana Country Club. Coaches Ken Clark and Guyle Eskridge, along with other visiting county coaches, and the Bulldog gridsters were honor guests. Rotary Anns also were present.

P. L. Downs, Jr., public relations department, Texas A. and M. College, was the principal speaker for the occasion.

A film of the Texas A. and M.-Baylor Southwest conference football game was one of the features of the program, projected on the screen by Glenn Thompson of Corsicana.

The invocation was given by Tom Bailey, following a sing-song led by Foy Garrett, with Bill Elliott as pianist. The benediction was pronounced by President Moyne L. Kelly. Kelly welcomed the visitors before turning the program over to W. L. David, toastmaster, Luther A. Johnson, Jr., was chairman of the program committee.

After the Rotary Anns and other guests were introduced, Coach Clark presented Coaches Kimbrough of Dawson, Amberg of Kerens, Lanier of Mildred and Davis of Frost and Zebbie Howell, Ennis, former coach. Each of the athletes gave his name and the position played on the football team.

**Rotarians Thanked.**

Coach Clark and President Ray L. Waller thanked the Rotarians for the annual banquet and other help extended Navarro Junior College. The president spoke of the co-operation extended the college officials throughout the county, and of the absence of opposition and criticism.

Downs was introduced as a member of the board of directors of Texas A. and M. College from 1923-1933, and now the head of the public relations department of the college.

The speaker praised the local community for its support of the Junior College and the interest shown in the youth of the area in providing a college. He predicted this nation as being safe so long as its citizens were interested in giving the youngsters the proper opportunity of training.

**Spoke of All-Americans.**

The former Temple resident spoke of his association with former All-America performers, including Kimbrough, Robnett and Boyd at A. and M., and Botchey Koch, Baylor great, and Aggie coach. He asserted they had performed outside the college football circles as AA-Americans in their lives.

Stating that he was one of those who worked in the establishing of the Temple Junior College years ago, Downs asserted he was interested in the junior colleges and invited the coaches and athletes to visit A. and M. College and inspect the equipment now available to assist in the training of the young men.

Mr. and Mrs. J. C. Calhoun, and Mr. and Mrs. T. M. George, III, left today for Tucson, Ariz, to visit Mr. and Mrs. T. M. Hart during the next two weeks.

## IN AND OUT OF SERVICE

Corporal Jack Youngblood left by plane Sunday for San Francisco, Calif., where he is stationed at Hamilton Field, with the U. S. army air forces. Mrs. Youngblood and young son, Gary, plan to join him at a later date.

Mr. and Mrs. M. E. Foust have gone to Thornton today to attend the funeral of Mr. Foust's sister, Mrs. Lula Meek who passed away at her home in Houston Monday.

Associated Press Staff

South America, hungry for dollars, wants American vacationers but the $500-tourist had better stick to Mexico or Central America.

On 500 bucks you can have a great time in Mexico, Acapulco or Guatemala. In Rio or Buenos Aires the same amount of dough would melt like snow in Texas. You'd be counting your chips every night, wondering how to get back home.

**Tourist Countries**

Rafael Ordorica, Latin-American trade representative from the International House, New Orleans, says Brazil and Argentina are in the forefront of the countries courting American tourists.

The Brazilian government now is subsidizing some tourist bureaus and Argentina is organizing one of its own.

Ordorica, slim, dark and alert, Mexican-born, U. S.-educated and an American citizen, can wax eloquent in six languages over the beauty and the attractions of South America.

"Rio," he sighs, has white sand, blue sky, and green and russet hills that come right out of the emerald ocean."

Brazil has many spas and resorts, elaborate and luxurious He cites one cespecially, Pocos De Caldas, a sulphur water spa in the mining state of Minas Geraes.

**Glacial Lakes**

An Argentina: "Two days by train south of Buenos Aires is Bari Loche, a region of resorts on glacial lakes where the towering Andes plunge straight down into the very blue and very cold waters. And six hours southeast of Buenos Aires is Mar Del Plata with magnificent hotels, beautiful gambling casinos, a spot for millionaires."

And Chile: "This country has gorgeous scenery and resort accommodations to match, but it has not yet discovered what a gold mine American tourists can be. It is not making much effort to attract them."

In Cuzco, Peru, high in the Andes, you can find the ruins of the Inca Indian empire; at Trujillo, Peru, you will discover 500 churches, two schools and no playgrounds. Bolivia has colorful attractions.

But this is champagne-style traveling; don't try it on a shoestring.

# Kerens Doctor Named Chairman Advisory Board

Dr. Gurley H. Sanders of Kerens was named chairman of the Navarro County Memorial Hospital Advisory board at a meeting of the board and commissioners court Monday evening at the courthouse. Another meeting of the full board was called by the new chairman for Monday night, Feb. 9 when a report on the federal aid possibilities for a new Navarro county hospital is slated to be made by a committee composed of Dr. A. W. Rogers, A. G. Elliott and H. R. Stroube.

Following the election of Dr. Sanders, he pointed out the desirability of getting real hospital facilities for this area, urged the exploring of the possibilities of private donations, etc.

Considerable time was spent in the various discussions incident to the needs, requirements and possibilities. The meeting was called by L. L. Powell, county judge, following the appointment recently of the advisory board by the commissioners court. Judge Powell presided at the meeting Monday evening.

The first step in the securing of a new hospital of 100-bed capacity or larger was taken several weeks ago when the Navarro Community Foundation earmarked an appropriation for $100,000 for a hospital of the first class.

After a survey of private donations in the city and county has been made, it is expected the advisory committee will carry a question of a bond issue to the people of the county if the board deems that matter expedient.

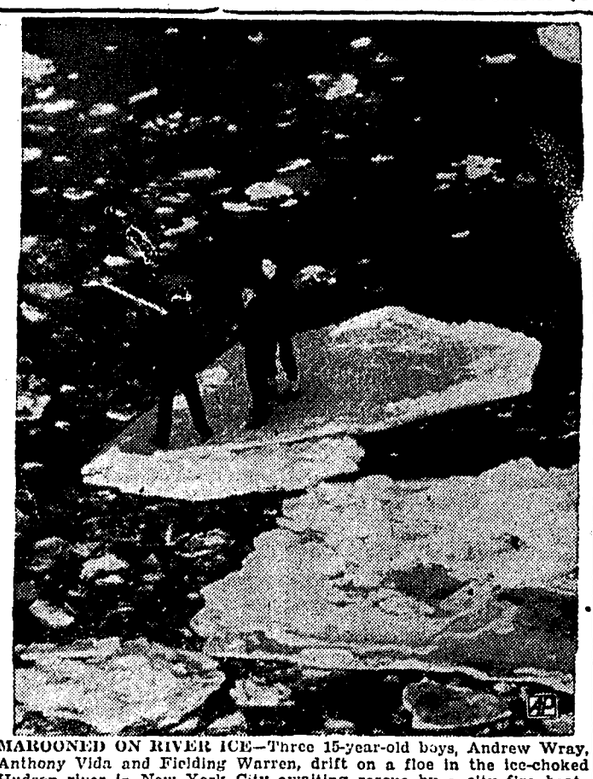

**Other Officers Named**

Other officers named at the organizational meeting included H. R. Stroube, Corsicana, vice chairman, and Paul Moore, Corsicana, secretary.

Dr. Sanders has been a practicing physician at Kerens for a number of years. He is a civic leader in Eastern Navarro county and at the present time is president of the Kerens board of education. He formerly was a city alderman for Kerens and has served as a member of the Navarro County Hospital Board, managing board of the P. and S. Hospital, for the past eleven years.

Among those present were Judge Powell, Dr. Sanders, Stroube, Moore, Mr. and Mrs. Elliott, Dr. and Mrs. Rogers, Dr. W. W. Carter, Mr. and Mrs. R. R. Brown, N. Suttle Roberts, R. V. Davis, Dawson; J. K. Bradley, Rice; Miller Reid, Blooming Grove, and Commissioners Carl McMullan, Chatfield; Fred M. Copeland, Pursley, and J. N. (Joe) George, of Blooming Grove.

At later meetings appointment of various committees and heads of various departments of a campaign are to be made, the chairman intimated Monday evening.

MAROONED ON RIVER ICE—Three 15-year-old boys, Andrew Wray, Anthony Vida and Fielding Warren, drift on a floe in the ice-choked Hudson river in New York City awaiting rescue by a city fire boat. They were carried into the stream when a chunk of ice eight feet by 14 broke away from the shore ice on which they were playing. (AP Wirephoto.)

# Further Study Of Meat Ordinance Before Passage

A proposed meat inspection ordinance for Corsicana will receive further study before being voted upon by the city commission, it was indicated at a meeting Wednesday night at the city hall.

Mayor Hubert T. Braselton, City Commissioner J. E. Davant, Jr., and City Attorney Julius C. Jacobs met with a group of meat handlers, health authorities and others in corporation courtroom to discuss the proposed ordinance and receive suggestions.

There was no protest against its passage, although some sections of the ordinance were discussed briefly.

It was decided that another meeting would be held before the ordinance is submitted for passage. At the next meeting a meat inspector from a city with a similar ordinance will be brought here to discuss its success in his city. It is hoped to get the official at Bryan, inasmuch as that city is reported to have the model meat inspection regulations. The man will be brought here at city expense to meet with the handlers.

About 25 persons, including slaughterers, retail and wholesale dealers, meat canners, health authorities, two doctors and a veterinarian attended the session.

# Body Of Former Corsicanan Found In Plane Wreck

DALLAS, Feb. 3.—(AP)—Mrs. Odie Minatra today telephoned from Japan to her parents in Dallas that the body of her husband, Capt. Minatra, who disappeared with another officer in a light plane three weeks ago, had been found by a U. S. army search party.

Mrs. Minatra, the former Charmaine Smith, married the army officer when he graduated from West Point in 1943. She joined him in Japan last October with their 15-months old baby. His parents, former residents of Corsicana, now live at Texas City. Capt. Minatra was 27 years old.

The West Pointer was on a routine flight from Osaka to Ikazumi airport, a B-29 base less than 400 miles away. Plane and pilots vanished. A search of the area by 26 American planes of the U. S. Far East air forces failed to reveal their whereabouts.

# THE NATION TODAY

By JAMES MARLOW

WASHINGTON, Feb. 5—(AP)—President Truman, in his message to congress on civil rights this week, said:

"The District of Columbia should be a true symbol of American freedom and Democracy....."

Congress runs Washington. The people whose homes are here can't vote. So the 900,000 residents can't choose their city officials.

Mr. Truman asked congress to pass a law letting the people here vote. If they can, he said, maybe they can clear up the "inequalities" here.

What inequalities? In many ways Washington is a Jim Crow town. Jim Crow is short for saying negroes are kept apart from white people.

A number of the inequalities are pointed out in the report of the president's committee on civil rights.

Mr. Truman appointed this committee of 15 prominent citizens more than a year ago to study the condition of civil rights in this country.

In its report made several months ago, the committee said we have made much progress in protecting civil rights but have far to go.

Mr. Truman, in his message asking more laws to protect civil rights, based his ideas on what the report said needs doing.

This is what the report said in part about Washington, D. C.:

**Failure**

"The District of Columbia x x is a graphic illustration of a failure of Democracy. As the seat of our Federal Government under the authority of congress, the failure of the District is failure of all the people x x x.

"If he stops in Washington, a negro may dine like other men in the Union Station, but as soon as he steps out into the capital he leaves such Democratic practices behind.

"With very few exceptions, he is refused service at downtown restaurants. He may not attend a downtown movie or play, and he has to go into the poorer section of the city to find a night's lodging.

**Low-Level Job**

"The negro who decides to settle in the District must often find a home in an overcrowded, substandard area. He must often take a job below the level of his ability.

"He must send his children to the inferior public schools set aside for negroes and entrust his family's health to medical agencies which give inferior service.

"In addition, he must endure the countless daily humiliations that the system of segregation imposes upon the one-third of Washington that is negro..."

"Except where the Federal Government has made a few independent advances, as in Federal employment and the use of Federal recreational facilities, racial segregation is rigid.

**"Ludicrous Extremes"**

"It extends to ludicrous extremes. Inconsistencies are evident:

"Constitution Hall, owned by the Daughters of the American Revolution, seats concert audiences without distinction of color, but allows no negroes on its stage to give regular commercial concerts.

"On the other hand, the commercial legitimate theater (the only theater in town showing Broadway shows) has had negro actors on its stage but stubbornly refuses to admit negro patrons."

The report says negroes are being forced into a few "overcrowded slums" and the negro public schools are "inferior to white schools in almost every respect."

"The greatest inequalities," says the report, "are evident in Washington's concern for the health of its residents."

There's a hospital here for negroes only. But the report says:

"Four of the 12 private hospitals in the city do not admit negro inpatients, and the rest accept only a few in segregated wards. It is peculiarly shocking to find church hospitals practicing discrimination."

In Washington negroes can ride side-by-side with white people on the street cars and buses.

This is something they can't do South of Washington, for in the Southern states negroes must ride behind white people.

Otherwise, there doesn't seem much difference between the Jim Crow treatment of negroes in the capital and the Southern states which usually are spoken of as the Jim Crow section of America.

To make the shaft again as serviceable as when new—be sure we turn out the job.

# TEEN TALK

Dear Judy:

Make your valentine party a heart-y shindig. Give the kids plenty to eat, hot drinks and new games to play and you'll have the gayest time ever.

Invitations should be heart-shaped, of course, with a personal message written on each. Vary your text in each case such as "Have a heart—come to my party," or "Your heart belongs to me for a Valentine's party" or "Your heartbeat will dance a polka at my party." You probably will dream up lots of intriguing messages that will have the kids gaga with excitement.

If you decide to invite some kids who aren't known to your own crowd, here is a dandy game to help get them acquainted. It will break the ice at any party. Even if the kids do not know each other they will enjoy playing it. Here's how you play "Romance:"

Type or print on small sheets of paper famous lovers of history, folklore, screen, stage or fiction. To start there is Wallis, Edward, Dante, Beatrice, Napoleon, Josephine, Antony, Cleopatra, John Alden and Priscilla. Give it

a little thought and you'll come up with hundreds of names. Put one on each sheet of paper and pin to the back of each guest when he arrives. Then the fun begins.

For instance, the person who has Napoleon may walk up to you and say: "Am I alive." (Answer: No.) Did I live in America? (No.) Europe? (Yes.) Was I a financier? (No.) A soldier? (Yes,)and so on. By the process of elimination they usually guess who they are before the evening is over. Everybody knows who everybody else is supposed to be. But nobody knows who he is supposed to be until he guesses.

Food served should be interesting to look at as well as tasty. A buffet table is ideal for a large group.

Start with soup. Canned tomato soup, quick to heat, can be served in cups, topped with slightly salted whipped cream and sprinkled with chopped salted nuts.

Sandwiches should include cream cheese and currant jelly or strawberry jam. Punch 'em out with a heart-shaped cookie cutter. Munchers will enjoy Smithfield ham (bought in a jar) stuffed in celery.

A candlestick dessert has lots of eye appeal and is simple to prepare. Just stand a banana upright on a saucer (after cutting a slice off one end,) top it with whipped cream and marshmallow and a cherry and you'll have an edible candlestick.

Stuff a cake with love fortunes. Wrap up the small symbols in tissue paper and put them in the cake. Here are a few starters and what they mean in love language: Engagement ring—a big romance; wedding ring—a bride soon; penny—you'll be wealthy; button—for a bachelor; thimble—spinster.

Here's a good warming punch the crowd will enjoy, particularly if the party falls on a cold night: To 1 gallon of sweet cider add 3 teaspoons allspice; 1 1-2 cups of brown sugar; 3 teaspoons whole cloves; dash of salt; dash of cayenne.

Mix the ingredients, boil for 15 minutes and serve hot. Lemon and maraschino cherries can be served on the side.

Vivian

"Why, dear, you're beautiful, tonight!"

# U.S. Students In Mexico Face New Immigration Law

MEXICO CITY, Feb. 5.—(AP)—About 1,000 students from the United States now attending Mexican colleges and universities were confronted today with a new interpretation of Mexico's immigration laws.

Most of the students, of which about 450 are Ex-GI's, entered Mexico on tourists permits. The new immigration law requires them to be registered as student immigrants.

Government officials said the law required payment of a 2,000 peso ($400) fee by those changing their status. Students either had the choice of making application for a change of status and going to the border to pick up their papers or returning to the U. S. making application, and reentering Mexico when their papers were approved.

Although the student immigrant papers are issued free, most students are living on small incomes and do not have available funds for the 1,500 mile trip to the border and return.

# MACKENZIE'S Column

By DeWITT MACKENZIE
AP Foreign Affairs Analyst

The British government's action in calling on the country for a voluntary freezing of wages, profits and prices in an effort to combat inflation is at once a warning of the gravity of England's economic crisis and an exhibition of Spartan determination to win through.

There would seem to be no question of ideology involved in this daring and drastic move by Britain's socialist regime. It's a matter of survival, ad Prime Minister Attlee himself presented the case to the House of Commons after consulting both trade unions and organized employers.

**Dangerous Period**

One suspects that the government's anxiety relates not so much to the present moment as to a dangerous period around the first of June. The experts tell us that Britain's gold and dollar reserves will be exhausted by about that time.

So with maybe four months to go before the monetary reserves run out, Attlee is taking time by the forelock in trying to inaugurate his ,steartling program to protect the value of the pound sterling and prevent inflation. Should this fail, and should no assistance be forthcoming from outside, England would be reduced to the expedient of barter trade with the result that her position as a world power would deteriorate rapidly.

**Another Problem**

Such a contingency raises another problem which is of world wide import and especially to the United States. Apropose of this the U. S. State Department a couple of weeks ago presented to congress a summary of the European political situation prepared by Truman administration agencies. These analyses showed, among other things, that American foreign policy makers believe if Britain should fail to regain its world position a vacuum would be created in the many strategic areas which she has dominated through the generations—the vital Mediterranean area, for instance, the Middle East and on into the Far East.

That vacuum couldn't long exist. It would have to be filled—and there would be only two great powers from which destiny could make a choice. One would be Russia and the other would be the United States. As the signs now read, the Soviet Union would be tickled to death to supplant mighty Britain.

Thus this new battle of Britain assumes a vast importance to every nation on the globe.

# Robert McMullen Civitan Speaker At Meeting Today

Robert McMullen of Corsicana, former officer in the Army Air Corps, was the featured speaker at the regular weekly meeting of the Civitan Club Thursday, relating some of his observations and experiences while stationed in India during World War II.

For musical entertainment, the Civitans heard a trio of musicians composed of Fred Spence, E. O. White and O. A. Cathey, who presented interesting selections on the electric guitar, harmonica and fiddle, respectively.

E. E. Burkhart and Dr. S. H. Burnett composed the program committee presenting the entertainment. Lloyd Carraway and Jim Culberson were named to the program committee for the February 12 meeting.

Individual discussion was heard relative to the Civitan Ladies' night, slated for February 19, and a program of entertainment for sometime in the near future, designed to bring some revenue into the club's coffers. Several types of programs were discussed, but none decided upon.

## *Kitchen Shower Honors Bride*

In compliment to Miss Frances Andres, whose mariage to F. L. Divine of Meridian, Okla., was solemnized on Sunday, February 1st, Mrs. Wm. K. Schuster entertained with a kitchen shower on the evening of January 25th.

The living room of the Schuster home was adorned with miniature umbrellas and the shower of useful kitchen paraphernalia was presented in an umbrella that was decorated in pink and blue.

The personnel included close relatives and friends who were served lime sherbert, cocoanut cake and coffee as climax to the prenuptian courtesy.

FORT WORTH, Feb. 5.—(AP)—Cattle 700; calves 300; generally steady; few loads and small lots of medium to good slaughter steers and yearlings 21.00-26.00; odd head club yearlings up to 32.50; plain butcher steers and yearlings 16.00-20.00; beef cows 16.50-21.00; canners and cutters 12.00-16.00; sausage bulls 16.50-21.50; good and choice slaughter calves 22.00-26.00; plain and medium calves 17.00-21.00; culls 14.00-17.00; stocker calves and yearlings 22.00-25.00; stocker cows scarce.

Hogs 800; butchers mostly 25c lower; sows were weak to 50c down; stocker pigs in narrow demand; top 25.25 paid for good and choice 200-290 lb hogs; good and choice 160-190 lb 22.50-23.50; unfinished light weight hogs 18.00-23.50; sows 20.50-22.00.

Sheep 2,000; few good wooled lambs and yearlings strong to 50c higher; other classes steady; good wooled lambs to shippers 24.00; most receipts good and choice shorn lambs with No. 1 or No. 2 pelts 23.00; good yearlings 20.00; common to medium yearlings 16.00; common and medium slaughter ewes 10.00-11.50; medium and good feeder lambs 19.00-20.00.

Chicago Livestock

CHICAGO, Feb. 5.—(AP)—(USDA)—Hogs 9,000; very slow; weights under 240 lb 25 cents lower; heavier weights 25-50 cents lower than Wednesday's average; sows around 50 cents off; top 26.25; good and choice 180-230 lb 25.75-26.25; 240-280 lb 24.00-25.25; 290-350 lb 23.00-24.00; good and choice 350-550 sows 22.00-22.75.

Cattle 3,500; calves 500; slaughter steers and heifers slow, steady to weak, supply light but demand correspondingly narrow; cows steady, good grades slow; bulls strong; load low-choice 1,442 lb fed steers 33.50; good to low-choice steers and yearlings 26.50-32.00; medium grades down to 21.50; medium and good heifers 21.00-27.50; medium and good beef cows 19.50-20.50; canners and cutters 15.00-17.75.

Sheep 6,200; market not established, lamb receipts largely good and choice; some interests talking 50 cents and more lower with some early bids as much as 1.00 off; early slaughter lamb bids 24.00-24.50; generally asking around steady or 25.00-25.25 for good and choice kinds; early sales slaughter ewes fully steady.

## Cotton

Texas Spots

DALLAS, Feb. 5.—(AP)—Spot cotton 33.25; Galveston 33.40; Houston 33.40.

New Orleans Spots

NEW ORLEANS, Feb. 5.—(AP)—Spot cotton closed steady, 50 cents a bale lower. Sales 1,035. Low middling 29.45; middling 33.45; good middling 33.95. Receipts 620, stocks 150,880.

New Orleans Cotton Table

NEW ORLEANS, Feb. 5.—(AP)—Cotton futures continued to decline here today under heavy long liquidation. Closing prices were steady, ten cents to $1.15 a bale lower.

| December | 30.98 | 30.98 | 30.53 | 30.86 |

New York Cotton Table

NEW YORK, Feb. 5.—(AP)—Cotton futures declined today on recurrent flurries of liquidation and hedging, influenced by farther weakness in grains and other markets.

Losses at one time extended to more than $3 a bale. Prices later recovered more than $1.50 a bale from the lows of the day, but again sagged in late dealings on renewed commission and New Orleans offerings.

The confidence of traders was shaken by uncertainity over the general trend of commodity prices, lagging export markets, and the lack of buyer interest in textiles.

Cotton futures developed a firm tone in late dealings and persistent mill buying and short covering met a scarcity of offerings. Prices rallied into new high ground for the day, although they slipped partially on a closing flurry of hedging.

Futures closed 50 cents to $1.05 a bale lower than the previous close.

| | Open | High | Low | Last |

# Sunday Services At Eureka Church

The Rev. Andrew B. Byers, pastor of the First Presbyterian church, Corsicana, will speak at the Patterson Memorial Presbyterian church, Eureka, at 6:30 p. m. Sunday, Feb. 8, according to announcement by the Rev. Henry M. Bailey, pastor of the Eureka church.

Rev. Byers will present the Presbytaerian Progressive Program of the Southern Presbyterian church, which stresses evangelism, missions at home and abroad, and stewardship, it was stated.

The general public is invited to attend.

The church Sunday school will meet at 10 a. m.

The subject at the 11 a. m. Sunday service will be "Times of Refreshing."

Lieut. Frances Harllee has arrived from Army Information School at Carlisle Barracks, Pa., for a visit with her aunts, Miss Lizzie Harllee and Mrs. J. C. Calhoun and other relatives. Lieut. Harllee is en route to Letterman General Hospital in San Francisco to resume her duties.

# HAVE ON HAND

# Self-Rationing Of Food Urged By Administration

WASHINGTON, Feb. 5.—(AP)—The administration made a bid today for nationwide self-rationing of food to cope with the cost of living.

To get it under way, the Agriculture department called an afternoon meeting of 18 groups representing food producers, traders and consumers.

The department predicts there will be a serious meat shortage in the spring. Congress, however, has turned down proposals that it be rationed by law.

For this reason, the department was expected to ask groups to bear down hardest on ways to curtail the use of meat.

Committees Active.

Meanwhile congressional committees continued working on proposals to tackle inflation by legislative action.

Senator Flanders (R-Vt) said he thinks chances are "reasonably good" that Congress will decide President Truman should have the right to say how much grain distillers may use for whisky and industrial alcohol.

Flanders is chairman of a house-senate economic subcommittee and a senate banking subcommittee which decided to hold combined hearings on the question today.

As the first witness they called Charles F. Brannan, assistant secretary of agriculture, who has been appointed by Secretary Anderson to run the nationwide voluntary food rationing porgram. Distillery representatives were next on the schedule.

Other Developments.

Other developments touching inflation:

Rent Control—A senate banking subcommittee began drafting, behind closed doors, a bill to extend the law beyond its Feb. 29 expiration date. Senate debate on the measure may start about Feb. 18. The house banking committee invited labor groups to say what form they think the new law should take.

Wage-price controls and compulsory rationing—The senate banking committee went into its last day of hearings with food processors as the main witnesses. The Republican-controlled congress has made it pretty plain that Mr. Truman is not going to get the wage-price controls and rationing.

Murder Jury Selected

DALLAS, Feb. 5.—(AP)—Selection of a jury has been completed in the murder trial of Carlos G. Martine, 20, indicted in the March 1, 1946 slaying of Gilbert Soto of Fort Worth. Soto was shot and killed in a disturbance in a Dallas tavern.

# *Gordon McCrea Due For Stellar Movie Buildup*

By BOB THOMAS

HOLLYWOOD, Feb. 5.—(AP)—You may have thought that the crooner cycle was on the wane, but not so for Gordon McCrea. He is due for a stellar buildup at Warners.

The East Orange N. J., singer got a movie break-in with the 17-day "Fighting Terror" in which he doesn't warble a note. He'll play a lead in "Rise Above It," musical version of "Brother Rat," and portray Marilyn Miller's first husband in "Silver Lining" opposite June Haver.

McCrea, who is an expectant father, has started a new air show, "After nine years of plugging, it's great to have everything coming my way," he said.

Joan Bennett Expecting.

Joan Bennett, who is working in "Hollow Triumph," expects a fourth child in June. Diana was born of Miss Bennett's first marriage, to John M. Fox, Seattle sportsman. She has two other daughters.

Barry Fitzgerald's agent denies the Irish star has been set for the Seabiscuit biog, which report came from a Warners source. Get together on your stories, boys.... Joan Crawford is tossing a fancy soiree for Noel Coward this Saturday.

Judy Garland won't be playing Sophie Tucker, as Sophie hoped. The part obviously calls for a bigger (physically) gal.... Dick Powell has been mentioned to replace ailing Charles Boyer in "Cairo Incident." But Dick thinks he'll turn it down for story reasons.

James Stewart will open in "Harvey" in New York March 28, play it for a month and return for "You Gotta Stay Happy" with Joan Fontaine. After that, he'd like to take "Harvey" to London. Incidentally, Jimmy has hired his first press agent.

Kay Kyser, who is celebrating the 10th year of his College of Musical Knowledge, still has two films to do at RKO. "But I'd rather deliver a telegram in a good picture than star in a stinker," he says. So's he waiting for the right vehicle. He'd like to emulate Edgar Bergen, who played a straight role in "I Remember Mama."

100,000 Killed in '47

CHICAGO, Feb. 5—(AP)—The nation's toll from accidents in 1947, says the National Safety Council, was: 100,000 killed, 10,500,000 injured and $6,700,000,000 economic loss.

There was a general increase in accidental deaths of all kinds—except traffic mishaps—as compared to 1946. Home accidents led, displacing traffic, traditional No. 1 leader. The council said one out of every 14 persons in the country suffered a disabling injury last year.

CARD OF THANKS.

We wish to expressf our appreciation to everyone who was so kind to us at the time of the death of our father, J. A. Ross. We especially thank Rev. Bailey, Mrs. Worsham and Mr. Corley for their special acts of kindness. Also we thank each of you who sent the beautiful floral offerings. May God bless each one of you, is our prayer.—Mrs. Viola Jones, Pasadena, Texas; Mrs. Ora Smith, San Marcos.

CARD OF THANKS.

We want to take this method in thanking each and every one who was so kind to us in the sorrow and death of our dear son. We want to thank Dr. Kelton and all the nurses who did all they could. We especially want to thank Bro. Goff and Bro. Kirkland for their sweet words of comfort. We thank each and everyone for the beautiful floral offerings and for the nice food. May God bless each and everyone of you. May God help us to help others as they helped us in their prayers.—Mrs. J. L. Grimes, Mr. and Mrs. D. G. Grimes and Children.

## Kerens Publisher Named Chairman

Gilbert F. White, publisher of the Kerens Tribune, has been named Navarro county chairman by J. R. Hawkins, publisher of the Groesbeck Journal, in the Sixth District's drive for funds to finance the activities of the Texas Press Association's Five-Year Plan.

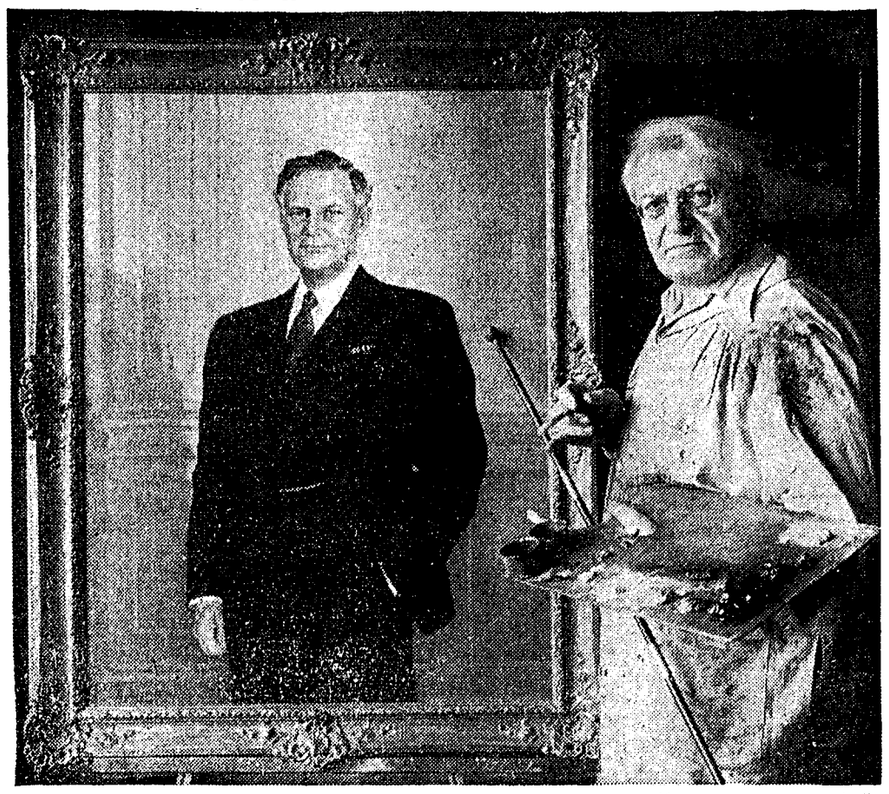

White expects to meet the other publishers of newspapers in Navarro county Saturday in Corsicana to further assist in this drive

## Sunday Rites For William A. Morris

Funeral rites for William A. Morris, 42, who was instantly killed Thursday afternoon while operating a wood saw at Belton, were held Sunday from the Assembly of God church in Cayuga. Burial was in the Judson cemetery. Morris was struck by the saw blade when the shaft broke. He was a native of Anderson county and resided in Cayuga until four years ago.

Surviving are his wife, four sons, five brothers and a sister. One brother, J. L. Morris, resides at Corsicana.

# A Governor and His Mother Down On Canvas

—Photographs by Taylor Studios.

**Seymour M. Stone, Fort Worth artist, is shown putting the final touches on the oil portrait of Gov. Beauford H. Jester. At the lower left is the finished painting of Mrs. George T. Jester, the Governor's mother, and widow of a former lieutenant governor of Texas. The paintings will be placed in the Texas Memorial Museum, and Stone, who has been in Corsicana several weeks, has made copies for the Jester library here. Fine Belgian canvas was used by Stone, who has painted three Presidents, during his career.**

## Club News

Yard Demonstrations—Mrs. Jack Marshall.

Song Leader—Mrs. Jack Marshall.

## Former Corsicana Minister Is Dead

Funeral services for Rev. Thomas Lenox, who died at Fort Worth Monday following a 22-months illness, were held at Fort Worth Wednesday afternoon, according to an Associated Press dispatch. He had served churches in Fort Worth, Gainesville, Cisco, Corsicana, Sweetwater, Van Alstyne and Slaton.

The minister served the First Christian church here several years ago.

Surviving are his wife, a son, Dr. W. R. Lenox, Fort Worth; a daughter, Mrs. Leslie P. Evans, Austin; three brothers and a sister.

The rites were held at 3 p. m. Wednesday at the Magnolia Avenue Christian Church in Fort Worth with Dr. John Lord of Texas Christian University in charge, assisted by Revs. Bayne Driscoll and Ambrose Edens.

J. W. Edens, Sr., J. W. Edens, Jr. and Albert Fullerton, all of Corsicana were pallbearers.

# Court Appoints Justice Of Peace For Precinct 6

W. T. Carter of Richland was appointed as justice of the peace, Precenct 6, to fill the unexpired term of C. A. Steele, resigned, at a meeting of the Navarro county commissioners court Monday afternoon.

Several bids for houses at the county farm at Petty's Chapel were received but no action was taken.

Reuben Tucker bid $100 for one of the houses on behalf of the Petty's Chapel Baptist church. The lumber would have been used to repair the chruch building.

W. N. Dycus, Drane, offered $150 for the same building.

A. J. Dooley, Corsicana, had posted a bid of $350 for the two houses in question. No bid was made for a barn advertised for sale.

The commissioners had advertised for bids for the repairing of the third floor of the county jail (plastering) but no bids were on hand Monday, the time set for receiving such bids.

# John Corley Is Named Chairman Navarro College

John R. Corley of Corsicana and A. L. Bain of Kerens were elected new regents of the Navarro Junior College Tuesday afternoon and then were selected as chairmen and vice chairman respectively of the board, Ray L. Waller, president announced following the meeting.

These two officials succeeded O. L. Albritton, Corsicana, and L. B. Bonner, Eureka, formerly chairman and vice chairman, respectively.

Albritton resigned, it was stated, since the college receives state funds and a bond from the depository bank is required. Albritton is a director of the First National Bank, depository, that made a $15,000 bond as the depository and therefore was ineligible to serve as a regent. Bonner's resignation is due to a recent accident that impaired his eyesight.

The regents voted to meet the second Tuesday night in each month in regular session. The next meeting will be in March.

Other officers are L. K. Carraway, Corsicana, secretary; L. B. Dawson, Corsicana, treasurer; Curtis Patterson, Frost; Bruce McCormick, Blooming Grove, and J. W. Richards, Richland, regents.

# Texas Conference Golf Tournament Due Here May 18

The Texas conference golf tournament will be held over the Corsicana Country Club links here May 18, it has been learned by local golfers. There are expected to be seven teams composed of six players each to compete—a total of 42 collegians. The tourney follows the annual Corsicana Country Club invitation tournament finals by a couple of days since that event is to be staged May 12-16.

The Texas conference ranks second in importance in Texas college circles to the Southwest conference with the larger state teachers' colleges participating.

Teams expected to be represented are North Texas State College, Denton; East Texas Teachers, Commerce; University of Houston, Sam Houston Teachers, Huntsville; Stephen F. Austin Teachers, Nacogdoches; Southwest Texas Teachers, San Marcos, and Trinity University, San Antonio.

Paul Bruce is chairman of the local tournament committee.

IMOGENE BENTLEY.

# NTSC Dean Of Women To Speak Here Feb. 12

Dr. Imogene Bentley, dean of women at North Texas State College, Denton, will speak to the members of Kinsloe House, Delta Kappa Gamma contribution dinner meeting, on Feb. 12 at 7:30 p. m. and the subject of her discussion wil be "Some of Our Educational Problems."

A native Texan, Dr. Bentley attended the elementary and high schools of Paris and was graduated from Paris Junior College. She received the bachelor of science degree from East Texas State Teachers College, Commerce, and the master of arts and doctors degrees at George Peabody College for Teachers in Nashville, Tenn. She is a member of the National Association of University Women; Delta Kappa Gamma; and the National Association of Deans of Women.

Dr. Bentley, in addition to her duties as instructor in English and dean of women, has become widely known in East and Central Texas for her humorous addresses and for those concerning current educational problems.

## Rites For Infant Monday Afternoon

Funeral services were held Monday afternoon at Mineola for the infant daughter of Mr. and Mrs. Glenn Smith, Mineola, who died Monday morning. Mrs. Smith is the former Miss Martha Ann Waddell of Corsicana.

Surviving are the parents, grandparents, Mr. and Mrs. W. B. Waddell, Corsicana, and Mr. and Mrs. J. J. Smith, Mineola, and other relatives.

**Civil Service Exams.**

The United States civil service commission announced today examinations for positions of highway engineer trainee in the public roads administration, and for positions of photofluorographic operator trainee, operator, unit supervisor, and inspector in the United States public health service. Both types of positions are located in Washington, D. C., and throughout the United States.

Full information and application forms may be secured from the commission's local secretary, W. C. Galloway, at the Corsicana postoffice.

# Corsicanans To Attend Meeting At Ennis Monday

Four Corsicana residents attended the second meeting of the recently organized Blacklands Water and Sanitary Association at the Ennis city hall Monday night.

W. T. Ballard, Tyler, district engineer of the state health department, was the principal speaker, discussing "Sewer Hazards."

Attending were C. A. Purcell, county sanitarian, and Mrs. Purcell; Miss Loreta Gailliard, city sanitarian; H. J. Ferguson and Kenneth Mays of the city water department.

At the organization meeting at Waxahachie, R. O. Smith of Palmer was named president. Emmett Cox of Waxahachie was selected vice president, and Paul W. Shulze of Waxahachie, secretary-treasurer. Miss Gaillard was named group leader.

There were 21 charter members, and 15 new members were added to th roster Monday night. The association is composed of waterworks and sanitation workers of surrounding counties.

# Two Corsicanans Win Ribbons At Fat Stock Show

At least two Corsicanans will return from the Southwestern Exposition and Fat Stock Show at Ft. Worth with prize ribbons, Associated Press dispatches reported today.

Lady Randolph, owned by Fair Acres Farm of Corsicana, won first place in the five-gaited junior stake of last night's horse show. Lady Randolph was ridden by Herb McClain.

In the rodeo results, Junior Cornell of Corsicana coped the third prize in the bareback bronc riding contest.

# FORMER RESIDENT DIES IN DALLAS; BURIAL WEDNESDAY

Mrs. Electra H. Rhoads, aged 92 years, former Corsicana resident, died in Dallas Monday night following a short illness.

Funeral services were held Wednesday afternoon at 2 o'clock from the Marshall and Marshall Funeral Chapel at Hillsboro, with interment in the Hillsboro cemetery.

Native of Hartford, W. Va. Mrs. Rhoads came to Hillsboro in the 1880's and resided there for many years. She made her home in Corsicana for ten years prior to 1942, when she moved to Fort Worth. She had been a longtime member of the Presbyterian church.

Surviving are a son, Garland Rhoads, Corsicana; and three grandchildren.

# Pioneer Navarro County Man Has 91st Birthday

E. B. Byrne, pioneer Corsicana and Navarro county resident, observed his 91st birthday on Sunday, February 1, as many friends and relatives gathered for a party in his home here.

Byrne has been a resident of Navarro county for 72 years. His wife, Mollie was 82 years of age last January 15.

Among the many friends who gathereed at their home near North Corsicana Sunday were:

Mr. and Mrs. Gordon A. Dibble of Denton; Mr. and Mrs. Bernie Clement of Dallas; Mr. and Mrs. Clifford Petty of Dallas; Mr. and Ms. E. G. Wendell of Dallas; Mrs. George Edmonds of Corsicana, G. I. Kent, Garland Kent, Melvin Kent, Will Peacock and Mr. and Mrs. C. B. McKinney,, all of Corsicana.

ROLLED BALE..

PACKAGE FOR GREEN LEAVES

Leaves are sealed within the bale, safe and dry.

Rolled bale is convenient to handle — will not buckle.

Hay unrolls into a wide, soft, leafy mat, appetizing to livestock. Can be fed whole in feed rack without waste.

Roto-baling is entirely automatic.

The tractor operator is the entire baling crew.

For the first time hay can be baled without matting or slicing. Hay is rolled up like a rug, tied with ordinary binder twine. Retains the quality of loose, leafy hay. Bale is weather resistant, easy to feed, easy to handle. The Roto-Baler is the only machine that makes a rolled bale.
